PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and built responsive **Power Apps Canvas Apps** for desktop and mobile users, integrating with **SharePoint Online** lists and **Microsoft Teams** channels to streamline operational workflows.
- Developed **Power Automate flows** to automate data synchronization between various business systems and **Microsoft 365** services, reducing manual data entry tasks by an estimated **40%**.
- Configured and managed **SQL Server** databases, including data modelling, performance tuning, and secure integration with **Power Platform** solutions, supporting an average of **5,000** daily transactions.
- Assessed existing application and integration architectures, producing detailed technical specifications that identified key risks and recommended improvements for scalability and supportability across a **multi-system landscape**.
- Implemented role-based access controls and audit logging within **Power Apps** and **Power Automate** solutions, ensuring compliance with internal governance policies and enhancing data security.
- Developed operational reporting and **Power BI dashboards** to visualize key performance indicators and support data-driven decision-making for business stakeholders.
- Containerised backend services using **Docker** and deployed them to an **AWS EC2** environment, managing configurations via **Jenkins** pipelines for consistent and controlled application rollouts.

SKILLS

Power Platform – Power Apps Canvas Apps, Power Automate, Power Fx, Power BI

Database – SQL Server, PostgreSQL, MySQL, Oracle

Integration – REST APIs, JSON, Custom Connectors, SharePoint Online, Microsoft Teams, Microsoft 365

Development – Java, Spring Boot, Python, .NET

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Methodologies – Agile, Scrum, Full Lifecycle Delivery, ALM

PROJECTS

Customer Operations Dashboard Enhancement (HCL Technologies)

- Developed new features for an enterprise **payments operations dashboard** using **Java Spring Boot**, improving transaction monitoring capabilities for a financial-services client.
- Automated data ingestion and validation processes using **Python scripting** and **SQL**, reducing manual reporting efforts by approximately **30%**.
- Collaborated with business analysts and operations teams to gather requirements, support UAT, and triage post-implementation issues in a production environment with strict SLAs.

Field Service Mobile Application (MSc Data Analytics Project)

- Designed and built a **Power Apps Canvas App** for field technicians, enabling them to manage work orders, capture site data, and update job statuses in real-time.
- Integrated the mobile application with backend **SQL Server** databases and **SharePoint Online** for data storage and retrieval, ensuring offline data synchronization capabilities.
- Created a set of **Power BI dashboards** to track key field service metrics, including job completion rates and response times, presenting findings to project stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
