PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented secure Azure Landing Zone architectures, incorporating **Microsoft Cloud Adoption Framework** principles for scalable, resilient infrastructure.
- Administered and supported **Azure Virtual Machines** (Windows and Linux) and managed **Azure Front Door** routing, health probes, and Web Application Firewall policies for global traffic distribution.
- Configured and maintained **Azure networking services** including Virtual Networks, subnets, Network Security Groups, Azure Firewall, and VPN Gateway to ensure secure connectivity.
- Managed **Microsoft Entra ID** (formerly Azure AD), including users, groups, enterprise applications, and service principals, implementing least-privilege access controls.
- Deployed and managed **Azure Storage Accounts** and **Azure Files**, alongside configuring **Azure Backup** and **Site Recovery** services for data protection and disaster recovery.
- Implemented Azure governance using **Management Groups**, subscriptions, **RBAC**, and **Azure Policy** to enforce resource standards and compliance across the environment.
- Containerized Java Spring Boot applications using **Docker** and deployed them to **AWS EC2** instances, establishing basic CI/CD pipelines with **Jenkins** for automated builds and deployments.

SKILLS

Cloud Platform – Azure, AWS, Azure Landing Zones, Azure Front Door, Azure Virtual Machines, Azure Networking, Virtual Networks, Subnets, Network Security Groups, Azure Firewall, VPN Gateway, Azure Storage Accounts, Azure Files, Azure Backup, Site Recovery

Identity & Security – Microsoft Entra ID, RBAC, Azure Policy, Conditional Access, Multi-Factor Authentication, Privileged Identity Management, Azure Key Vault, Zero Trust principles, Microsoft Defender for Cloud

Infrastructure as Code & CI/CD – Infrastructure as Code, Jenkins, Docker, Git, Cloud Adoption Framework, Well-Architected Framework

Operating Systems & Scripting – Windows Server, Linux, Shell Scripting

Programming & Backend – Java, Spring Boot, REST APIs, Python, SQL

Virtualization & On-Premise – VMware

PROJECTS

Azure Hybrid Cloud Infrastructure Setup

- Designed and deployed a hybrid cloud environment integrating **on-premises VMware** infrastructure with **Microsoft Azure**.
- Configured secure network connectivity between Azure Virtual Networks and the on-premises data center using **VPN Gateway**.
- Implemented centralized logging and monitoring for both Azure and VMware environments using **Azure Monitor** and integrated tools.

Cloud-Native Application Deployment Pipeline

- Developed a **CI/CD pipeline** using **Jenkins** to automate the build, testing, and deployment of Java Spring Boot applications to **Azure Virtual Machines**.
- Containerized microservices using **Docker**, ensuring consistent deployment across development, staging, and production environments.
- Managed application configurations and secrets using **Azure Key Vault**, enhancing security and simplifying credential management.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
