HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Power BI dashboards** with interactive visualizations and **DAX measures** to present key performance indicators to business stakeholders, improving data accessibility for strategic decision-making.
- Developed and maintained **ETL/ELT pipelines** using **Power Query (M)** to extract, transform, and load data from various sources into a centralized data repository, ensuring data consistency for analysis.
- Built and optimized **semantic data models** within **Microsoft Fabric**, enhancing data usability and performance for downstream reporting and analytical applications.
- Wrote complex **SQL queries** against **Azure SQL Server** to extract and analyze large datasets, supporting ad-hoc reporting requests and data validation processes.
- Collaborated with business stakeholders to gather requirements, translate complex needs into technical specifications, and manage priorities for multiple reporting projects under tight deadlines.
- Ensured high standards of **data quality and governance** across all analytical solutions, implementing validation checks and documentation best practices within the **Microsoft Fabric platform**.
- Containerized data processing components using **Docker** and deployed them to cloud environments, ensuring consistent execution and simplified management of data pipelines.

SKILLS

Data Analysis & BI – Power BI, DAX, Power Query (M), Tableau, R / RStudio, Data Modelling, Data Warehousing, Business Intelligence

Data Platform & Engineering – Microsoft Fabric, Fabric Data Factory, Lakehouse architecture, Dataflows Gen2, SQL Server, Azure SQL, ETL/ELT

Programming & Scripting – Python, Spark, SQL, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2/S3/Lambda/CloudWatch), Docker, Git, Jenkins, Azure DevOps

Core Technologies – Java, Spring Boot, REST APIs, Linux

PROJECTS

Interactive Sales Performance Dashboard (MSc Data Analytics)

- Developed an **interactive Power BI dashboard** to visualize sales performance metrics, including revenue, conversion rates, and customer acquisition cost, for MSc project stakeholders.
- Engineered data models and wrote **DAX measures** to calculate key performance indicators and facilitate drill-down analysis across different sales regions and product lines.
- Implemented data cleaning and transformation logic using **Power Query** to integrate data from multiple simulated sources, ensuring data integrity for accurate reporting.

Customer Transaction Analysis Pipeline (HCL Technologies)

- Built a **Python ETL pipeline** to process and aggregate high-volume transaction data from enterprise systems, supporting operational monitoring and reporting for a financial-services client.
- Wrote **SQL queries** against **PostgreSQL** to extract and validate transaction records, ensuring data accuracy for reconciliation workflows and audit trails.
- Automated report generation using **Python scripting** to deliver daily summaries of key operational metrics, reducing manual effort for the client's operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
