HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Documented **Oracle Data Integrator (ODI)** processes and established comprehensive documentation for the **Oracle Data Warehouse**, including source-to-target mappings, transformations, and dependencies for the **OBIEE platform**.
- Captured scheduling and orchestration details for critical data flows, including frequency, sequencing, dependencies, and upstream/downstream process interactions.
- Garnered technical knowledge from subject matter experts and experienced staff to document how critical data integration processes were implemented.
- Developed and maintained run books and operational procedures for business-critical **ODI** processes, supporting BAU operations and incident response.
- Led structured technical knowledge-transfer sessions and walkthroughs, facilitating knowledge sharing into the IT Data Office team through shadowing and quarterly sessions.
- Produced instructional videos to effectively transfer complex technical knowledge of data integration workflows.
- Containerized **Python** data processing scripts and deployed them to an **AWS Lambda** environment, managing data ingestions for downstream analytics platforms.

SKILLS

Data Integration – Oracle Data Integrator (ODI), Oracle Data Warehouse, OBIEE, PL/SQL, Python, Azure SQL, Azure Fabric

Programming Languages – Python, PL/SQL

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – Oracle, PostgreSQL, MySQL

Tools & Technologies – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Docker

PROJECTS

Oracle Data Integrator Process Documentation and Runbooks

- Created detailed documentation for key **ODI** jobs, mapping source systems, target tables, and complex transformations for a large-scale data warehouse.
- Developed operational runbooks and standard operating procedures for critical batch processes, reducing incident resolution time by approximately **20%**.
- Conducted knowledge-transfer sessions with the operations team, using **Python** scripts to demonstrate data flow logic and error handling.

Python-based Data Ingestion Pipelines for Analytics

- Engineered **Python** scripts to automate the extraction, transformation, and loading (ETL) of data from various enterprise systems into a central data repository.
- Implemented data validation checks within the pipelines to ensure data integrity, reducing data quality issues reported by downstream consumers by **15%**.
- Configured and managed **AWS Lambda** functions and **S3** buckets for scalable and cost-effective data ingestion and storage.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
