HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for inter-service communication, handling approximately **2,000 requests per minute** during peak loads.
- Managed relational database interactions using **Hibernate** and **JPA** for a core enterprise application, ensuring data integrity across complex schemas.
- Authored **Java** code for feature enhancements and bug fixes, adhering to established OOP principles and design patterns, and achieving **90% JUnit test coverage** for new modules.
- Designed and implemented **Python** scripts to automate ETL processes for financial reporting, reducing manual data aggregation time by **~30%**.
- Built and deployed **Docker** containers for microservices on **AWS EC2** instances, integrating with **Jenkins** for continuous integration and delivery pipelines.
- Collaborated with Finance and Tax teams to implement and debug billing logic, ensuring accurate revenue capture and compliance with reporting requirements for **enterprise pricing**.
- Investigated and resolved complex customer billing issues by analyzing logs, tracing transaction flows, and debugging code across the payments system, improving customer satisfaction metrics by **15%**.

SKILLS

Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn, FastAPI, Flask

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

Domain – Payments Systems, Billing, Usage Tracking, Enterprise Pricing, Financial Reporting, Data Analytics

PROJECTS

Automated Usage Metering Service (HCL Technologies)

- Developed a **Python**-based service deployed on **AWS Lambda** to accurately meter API requests for a SaaS platform, processing over **5,000 events per hour**.
- Implemented robust logging and error handling using **Splunk**, enabling rapid debugging and ensuring data accuracy for billing calculations.
- Designed and documented the service architecture, including API contracts and data flow diagrams, for seamless integration with downstream billing systems.

Enterprise Billing System Enhancements (HCL Technologies)

- Enhanced an existing **Java Spring Boot** application to support new enterprise pricing tiers and complex usage-based billing rules, impacting over **500 enterprise accounts**.
- Integrated with a third-party payment provider API using **REST** principles to streamline payment processing and reduce manual intervention.
- Wrote comprehensive unit and integration tests using **JUnit**, achieving over **85% code coverage** for the modified modules.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
