HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Monitored and troubleshot **Python-based data applications** and workflows, ensuring high availability and stability across production environments.
- Investigated and resolved **data quality issues**, application failures, and production incidents, maintaining critical reporting processes.
- Identified and addressed performance bottlenecks across **Python applications** and **SQL databases**, contributing to operational efficiency.
- Managed and optimized large-scale **data processing workflows** handling high-volume datasets, ensuring successful batch processing schedules.
- Developed and implemented **monitoring and alerting best practices** across data platforms, enhancing proactive incident response.
- Contributed to **root cause analysis** and incident management activities, ensuring adherence to regulatory and audit requirements within a banking environment.
- Containerized **Python applications** using **Docker** and deployed them to **AWS EC2 instances**, managing CI/CD pipelines with **Jenkins**.

SKILLS

Languages – Python, SQL, Bash, Java

Databases – MongoDB, PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Tools & Platforms – Autosys, Splunk, Dynatrace, Jira, Confluence

Data & Analytics – Data Warehousing, ETL, Data Modelling, Power BI, Tableau, R, pandas, NumPy, scikit-learn

Domain Experience – Financial Services, Regulatory Reporting, VAT Recovery, Transaction Monitoring, Reconciliation Workflows, Production Support, Incident Management

PROJECTS

Python Data Platform Support & Optimization

- Provided production support for critical **Python data applications** and **SQL databases**, resolving incidents and ensuring high availability.
- Optimized **large-scale data processing workflows** and batch jobs managed by **Autosys**, improving execution times by approximately **18%**.
- Developed new monitoring and alerting mechanisms using **Splunk** and custom scripts to proactively identify and address potential issues in the production environment.

Automated Financial Reporting Pipeline

- Engineered a **Python-based pipeline** to automate the generation of financial reports, integrating data from **PostgreSQL** and **MongoDB**.
- Implemented **data validation** and quality checks within the pipeline, reducing data discrepancies reported by business stakeholders by **30%**.
- Containerized the reporting application using **Docker** for consistent deployment across development and production environments on **AWS**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
