# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Designed and developed **Power Apps canvas applications** with **Power Fx** for mobile and field workforce management, incorporating offline capabilities to ensure data access in low-connectivity areas.
- Automated cross-application data synchronization and business process execution using **Power Automate**, reducing manual data entry tasks by approximately **20%** for operational planning teams.
- Implemented secure integrations between **Power Platform solutions** and existing **Microsoft 365 services**, including SharePoint Online and Teams, to streamline operational workflows.
- Developed and optimized **SQL Server** databases and data models to support **Power Platform** applications, ensuring efficient data retrieval and storage for asset management functionalities.
- Configured **security, audit, and governance controls** within the **Power Platform** environment, aligning with enterprise policies and ensuring role-based access for different user groups.
- Created **Power BI dashboards** and operational reports to monitor key performance indicators (KPIs) for Aids to Navigation (AtoN) and asset management, providing actionable insights to stakeholders.
- Managed application lifecycle, including controlled deployments and environment configurations, adhering to best practices for **solution architecture** and maintainability.

## SKILLS

**Microsoft Power Platform** – Power Apps, Power Automate, Power BI, Power Fx, Managed Solutions, Environments, Deployment Pipelines

**Database & Integration** – SQL Server, Data Modelling, REST APIs, JSON, Custom Connectors

**Microsoft Ecosystem** – Microsoft 365, SharePoint Online, Teams, Planner, Microsoft Entra ID

**Development & Architecture** – Solution Architecture, Application Lifecycle Management, Secure Design, Role-Based Access Control

**Cloud & Infrastructure** – Azure Functions, AWS (EC2, S3, Lambda, CloudWatch)

**Programming & Scripting** – Python, Java, Spring Boot, SQL

**Methodologies & Tools** – Agile, Scrum, Jira, Confluence, Git, Jenkins

## PROJECTS

### Field Service Mobile Application Enhancement

- Developed a **Power Apps canvas application** to digitize field service work orders, enabling mobile technicians to access and update asset management data in real-time.
- Integrated offline data synchronization capabilities, allowing users to continue working without a stable internet connection and syncing changes automatically upon reconnection, reducing data loss incidents by **~30%**.
- Configured **Power Automate** workflows to automate task assignments and status updates between field technicians and the central operations team, improving response times by an estimated **15%**.

### Operational Reporting Dashboard for Asset Management

- Designed and implemented a **Power BI dashboard** to visualize key metrics for asset lifecycle management, including maintenance schedules, repair costs, and asset utilization.
- Developed complex **DAX measures** and Power Query transformations to aggregate data from multiple **SQL Server** sources, providing a unified view of asset performance.
- Collaborated with operational stakeholders to define reporting requirements and deliver interactive visualizations, supporting data-driven decision-making for resource allocation.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
