HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and built scalable analytics workflows and dashboards using **Tableau** and **PostgreSQL**, translating complex business requirements into performant data models.
- Developed and optimized SQL queries for large datasets on AWS, focusing on improving data retrieval efficiency for analytical reporting.
- Collaborated with product managers and data experts to integrate real-time data-driven solutions into client-facing platforms, ensuring alignment with business objectives.
- Authored clear, well-structured insight summaries and recommendations derived from complex data analysis, enabling business users to make actionable decisions.
- Managed production support for enterprise applications, performing root cause analysis for P1/P2 incidents and ensuring adherence to strict SLAs.
- Automated data extraction and transformation processes using **Python** scripting, reducing manual effort for scheduled reporting by approximately **40%**.
- Containerized Java Spring Boot services using **Docker** and deployed them to an **AWS** EKS cluster, enhancing deployment consistency and scalability.

SKILLS

Analytics & BI Tools – Tableau, Power BI, DAX, Power Query

Databases & Data Warehousing – SQL, PostgreSQL, MySQL, Oracle, AWS Databases

Programming Languages – Python, Java, R

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Development Tools & Methodologies – Git, Jenkins, Docker, Agile, Scrum, REST APIs

Data Science & ML – scikit-learn, pandas, NumPy, Statistical Analysis, Machine Learning Fundamentals

PROJECTS

IoT Connectivity Analytics Platform

- Developed analytical workflows and dashboards in **Tableau** to visualize real-time connectivity data from IoT devices for automotive clients.
- Engineered **SQL** queries on an **AWS**-based database to extract and aggregate large volumes of device telemetry data, supporting guided analytics.
- Translated business use cases into data models and visualizations that provided actionable intelligence on connectivity quality for hundreds of business users.

Automated Reporting and Data Pipeline

- Built automated **Python** data pipelines to ingest, clean, and transform raw data from edge collectors, feeding into enterprise analytics systems.
- Implemented scheduled reporting mechanisms that delivered key performance indicators to stakeholders, reducing manual reporting time by **35%**.
- Managed data quality checks and validation within the ETL process, ensuring accuracy and reliability of data used for analysis and decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
