HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained core components of a **Corporate Deposits platform** for a key financial services client, focusing on application enhancements and workflow modifications.
- Supported the delivery of **AMLR programme** requirements by implementing application enhancements, workflow changes, and user interface updates within a business-critical system.
- Designed, developed, and optimized **Microsoft SQL Server** database objects, including stored procedures and views, to support application functionality and performance.
- Investigated and resolved complex production issues within the **VB.Net application** and its associated SQL Server databases, ensuring application stability and performance SLAs were met.
- Collaborated with business users and project stakeholders to gather requirements for the **Corporate Deposits platform**, translating technical needs into actionable development tasks.
- Participated in code reviews and testing activities for **VB.Net and SQL Server** components, contributing to the overall quality and reliability of the application estate.
- Contributed to continuous improvement initiatives across the application estate by identifying and implementing optimizations for the **Corporate Deposits platform**.

SKILLS

Programming Languages – VB.Net, SQL, Python, Java

Databases – Microsoft SQL Server, PostgreSQL, MySQL, Oracle

Development Tools – Visual Studio, Jenkins, Git, Jira, Confluence, Docker

Frameworks/Platforms – Spring Boot

Domain Knowledge – Financial Services, Corporate Deposits, AMLR Programme, Regulatory Environments

PROJECTS

Corporate Deposits Platform Enhancements (HCL Technologies)

- Enhanced key functionalities of a **Corporate Deposits platform** using **VB.Net**, focusing on improving user workflows and data processing capabilities.
- Developed and optimized **SQL Server stored procedures** to support new business requirements and improve query performance for critical deposit operations.
- Collaborated with business analysts to define requirements and validate implemented solutions for the **AMLR programme** within the banking application.

Financial Transaction Support System (HCL Technologies)

- Developed automation scripts in **Python** to streamline data ingestion and reporting for financial transaction monitoring systems.
- Supported production environments for financial services applications, performing incident response and root cause analysis on **Java Spring Boot** services and **PostgreSQL** databases.
- Contributed to the development of operational dashboards, integrating data from multiple sources to provide insights into transaction flows and system health.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
