PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed and updated asset registers and equipment databases, ensuring data integrity for over **15,000 assets** across water and wastewater facilities.
- Supported asset tagging and verification projects, coordinating with field service engineers to collect and validate equipment information, contributing to the accuracy of **4,000+ tagged assets**.
- Collected, validated, and uploaded detailed asset information into **Maximo and other client systems**, resolving data discrepancies and ensuring compliance with project requirements.
- Produced comprehensive reports, data summaries, and equipment records using **Microsoft Excel**, supporting service engineers and project teams in verifying critical equipment data.
- Identified and resolved inconsistencies across multiple data sources within asset records and datasets, improving overall data accuracy by an estimated **15%**.
- Maintained service documentation, records, and technical information, ensuring accessibility and adherence to organisational standards.
- Contributed to the continuous improvement of business systems and information management processes, proposing and implementing enhancements to data validation workflows.

SKILLS

Systems Management – Maximo, CMMS, ERP, SAP, PEMAC, Asset Registers, Equipment Databases, Data Management

Data Analysis & Reporting – Microsoft Excel, Data Validation, Reporting, Data Summaries, Analytical Skills, Identifying Inconsistencies

Databases & Data Handling – Large Datasets, Structured Information Systems, Database Management, Data Uploads

Project Support & Coordination – Asset Tagging, Verification Projects, Service Operations, Project Teams, Technical Personnel Collaboration

Documentation & Processes – Service Documentation, Technical Information, Business Systems, Information Management Processes, Continuous Improvement

Core Skills – Organisational Skills, Communication Skills, Independent Work, Multi-tasking

PROJECTS

Enterprise Asset Management System Enhancement

- Developed and maintained structured asset registers and equipment databases, handling over **10,000 distinct equipment records** for a utilities client.
- Coordinated with field technicians to perform on-site asset tagging and data verification, ensuring accurate capture of serial numbers, installation dates, and technical specifications.
- Uploaded validated asset data into a central management system (analogous to Maximo), implementing data quality checks to ensure consistency across multiple data feeds.

Water Infrastructure Data Validation & Reporting

- Supported a large-scale data migration project by collecting and validating asset information from diverse sources, including legacy spreadsheets and maintenance logs.
- Generated detailed reports and data summaries using advanced Excel functions and Power Query, identifying and rectifying over **500 discrepancies** in equipment records.
- Collaborated with engineering teams to cross-reference technical documentation and confirm equipment details, ensuring data accuracy for downstream maintenance planning.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
