PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Architected and developed **REST API integrations** and **webhook endpoints** using **Python**, facilitating data exchange between disparate marketing platforms and internal business systems.
- Designed and implemented secure integration workflows, including robust **authentication mechanisms**, comprehensive **error handling**, and detailed **logging** for critical data synchronization processes.
- Developed and executed **integration testing strategies**, ensuring data accuracy, reliability, and performance across multiple third-party SaaS platforms and enterprise applications.
- Collaborated with cross-functional teams, including engineering, architecture, and business stakeholders, to define technical discovery and translate requirements into actionable development plans for integration solutions.
- Performed root-cause analysis and resolved complex integration issues, debugging data transformations and validation logic to maintain seamless operational flow.
- Created and maintained detailed technical documentation, including integration specifications and operational handover materials for production deployments.
- Containerized integration services using **Docker** and deployed them to **AWS EC2** instances, ensuring scalable and reliable execution within the cloud environment.

SKILLS

Backend Development – Python, Java, Node.js, C#

API Integration – REST APIs, Webhooks, API Authentication, Data Transformation, Error Handling, Logging, Monitoring

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Development Tools – Git, Jenkins, Docker, Jira, Confluence

Methodologies – Agile, Scrum

PROJECTS

Enterprise Marketing Platform Integration

- Designed and built robust **REST APIs** and **webhook listeners** to connect a global digital marketing platform with core enterprise CRM systems, enabling bidirectional data flow for lead management.
- Implemented complex data transformation logic in **Python** to map and synchronize customer attributes between systems, ensuring data consistency and reducing manual reconciliation efforts by approximately **40%**.
- Developed comprehensive unit and integration tests for the integration layer, achieving over **90% code coverage** and ensuring reliable data transfer during peak campaign periods.

Real-time Lead Data Synchronization Service

- Engineered a real-time data synchronization service using **Python** and **FastAPI** to push qualified leads from marketing automation tools to sales platforms via secure webhooks.
- Integrated authentication and authorization using **OAuth 2.0** protocols to ensure secure data exchange with external marketing technology vendors.
- Configured logging and monitoring using **AWS CloudWatch**, providing real-time visibility into data flow status and enabling rapid identification of any synchronization failures.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
