HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed **REST APIs** in **Java Spring Boot** for integrating AI services with enterprise applications, focusing on asynchronous processing and error handling to ensure reliability.
- Built **Python** integration components and automation services to support AI solutions, including data transformation pipelines for feeding into **machine learning** models.
- Developed and maintained automated quality assurance frameworks for AI-enabled solutions, creating functional, integration, and regression test suites using **Python** and standard testing libraries.
- Integrated AI capabilities with enterprise platforms like **Dynamics 365** and **Microsoft 365**, defining and implementing reusable integration patterns for future AI initiatives.
- Collaborated with the Porto AI team to ensure architectural consistency and adherence to technical standards, contributing to the design of future-state AI architecture.
- Supported deployment automation and operational readiness activities for AI solutions, working with CI/CD pipelines to streamline the release process and ensure maintainability.
- Containerised AI integration services using **Docker** and deployed them onto **AWS EC2** instances, configuring basic resource limits and monitoring with **CloudWatch**.

SKILLS

Languages – Python, Java, C#, .NET

Cloud & Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure Integration Services, Microsoft 365, Dynamics 365, Power Platform

APIs & Integration – REST APIs, Middleware

AI & ML – Machine Learning, AI Integration, Generative AI

Testing & QA – Automated Testing Frameworks, Quality Assurance Methodologies, Functional Testing, Integration Testing, Regression Testing

DevOps & Tools – Docker, Jenkins, Git, Jira, Confluence

PROJECTS

AI Integration Framework Development (HCL Technologies)

- Engineered a reusable **Python** framework for integrating diverse AI model outputs into enterprise reporting systems, abstracting API calls and data mapping logic.
- Developed **RESTful APIs** using **Flask** to expose AI model predictions and insights, enabling consumption by downstream business intelligence tools and dashboards.
- Implemented automated data validation and schema checking within the integration pipelines, reducing data-related errors by approximately 15% during development cycles.

Machine Learning Model Deployment Pipeline (HCL Technologies)

- Built a **Python**-based pipeline to automate the deployment of trained **machine learning** models to a staging environment, integrating with CI/CD tools.
- Developed a set of integration tests to verify model inference accuracy and latency against predefined benchmarks, ensuring consistent performance across deployments.
- Containerised the model inference service using **Docker**, facilitating consistent deployment across development and testing environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
