HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and deployed **Java Spring Boot** microservices for new feature development, integrating with existing enterprise systems via REST APIs.
- Implemented robust persistence layers using **Hibernate** and **JPA**, ensuring data integrity and efficient querying across multiple relational databases.
- Developed reusable Java components and libraries, adhering to **Object-Oriented Design Principles** and implementing comprehensive unit tests with **JUnit** and **Mockito**.
- Configured and maintained **MariaDB** and **ClickHouse** database instances, performing regular backups, performance tuning, and schema updates.
- Managed and optimized **Nginx** web server configurations for high-traffic applications, implementing caching strategies with **Redis** to improve response times.
- Authored and executed **Bash** scripts for system administration tasks, automating log analysis and routine server maintenance across a fleet of Linux machines.
- Containerized backend services using **Docker**, building and managing images for deployment onto **AWS EC2** instances for scalable infrastructure.

SKILLS

Databases – MariaDB, ClickHouse, PostgreSQL, MySQL, Oracle, Redis, Memcached, CouchBase

Web Servers – Nginx

Languages – Java, Python, Bash, PHP, SQL, Go

Frameworks – Spring Boot, Hibernate, JPA

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, GitHub, Puppet, Linux (RedHat)

Methodologies – Agile, SCRUM, CI/CD

Tools – JIRA, Confluence, Splunk, Dynatrace, Nagios

PROJECTS

High-Performance Ad-Serving Backend (Java)

- Developed a scalable **Java Spring Boot** application to serve ad requests, processing over 5,000 requests per second during peak hours.
- Integrated **Hibernate** with a **PostgreSQL** database to manage campaign data and user profiles, optimizing query performance by 20% through indexing.
- Designed and implemented RESTful APIs for communication between ad-serving modules, ensuring low latency for real-time bidding processes.

Linux Server Automation Suite (Bash & Python)

- Created a suite of **Bash** and **Python** scripts to automate the deployment and configuration of Linux servers, reducing manual setup time by 60%.
- Implemented automated monitoring checks using **Nagios** and custom **Python** scripts, reducing critical system alerts by 35% through proactive issue detection.
- Managed server configurations using **Puppet** modules, ensuring consistent environments across development, staging, and production infrastructure.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
