PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed **IAM access provisioning** and deprovisioning workflows for enterprise systems, ensuring compliance with security policies and meeting SLA requirements.
- Resolved over **~150 IAM-related tickets** per month via Jira and ServiceNow, performing root cause analysis and implementing corrective actions.
- Authored and maintained **Python scripts** to automate repetitive IAM tasks, including user access updates and compliance reporting, reducing manual effort by **~40%**.
- Collaborated with U.S.-based IAM counterparts on a follow-the-sun support model, ensuring **24/7 global operational continuity** for identity management services.
- Assisted in the configuration and troubleshooting of **automation pipelines** for identity-related workflows, enhancing efficiency in deployment processes.
- Developed and maintained comprehensive **technical documentation** for IAM processes, automation scripts, and troubleshooting guides, improving team operational clarity.
- Deployed and configured **Splunk** dashboards for monitoring **IAM system health** and identifying potential risks before impacting operations.

SKILLS

Identity & Access Management – Access Provisioning, Deprovisioning, Permissions Management, Role-Based Access Control (RBAC), Identity Providers (IdP), Okta, Entra ID

Scripting & Automation – Python, Bash, PowerShell, Selenium

Cloud & Infrastructure – AWS, GCP, EC2, S3, Lambda, CloudWatch, IAM, Service Accounts, Custom Roles, Security Policies

Monitoring & Observability – Prometheus, Grafana, Splunk

Tools & Methodologies – Jira, ServiceNow, Agile, Scrum, CI/CD, Git

Containerization & Orchestration – Docker, Kubernetes

PROJECTS

Automated IAM Compliance Reporting System

- Developed a **Python-based automation system** to generate monthly compliance reports for user access reviews, integrating with **AWS IAM** and extracting data via CloudWatch logs.
- Designed and implemented a series of **Bash scripts** that automated the extraction and aggregation of access data, reducing report generation time from 3 days to 4 hours.
- Authored detailed documentation for the system's architecture, deployment, and maintenance, enabling the operations team to manage the solution independently.

Identity Provider Integration with AWS and Entra ID

- Assisted in migrating user identities by integrating an enterprise **Entra ID** instance with AWS services, configuring federation and custom IAM policies.
- Wrote **Python scripts** to validate and provision user access across linked AWS accounts based on Entra ID group memberships, ensuring secure role assignments.
- Developed troubleshooting guides for common integration issues encountered during the migration, improving resolution times for escalated tickets.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
