HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** microservices to support real-time data API requirements, ensuring **high-quality code solutions** and maintainability.
- Developed and maintained **REST APIs** using **Java Spring Boot**, facilitating seamless integration between backend services and other business applications.
- Managed production environments for enterprise applications, focusing on **SLA management**, P1/P2 incident response, and ensuring **system reliability and stability** across multiple environments.
- Collaborated with cross-functional teams, including quality assurance, security, and product management, to deliver **exceptional software design** and performance.
- Contributed to the analysis and design of full-stack solutions, working alongside architects and product owners to shape strategic roadmaps and overall direction.
- Mentored junior engineers on best practices in **Java development** and **agile methodologies**, encouraging skill development and continuous improvement.
- Containerized backend services using **Docker** and deployed to **Kubernetes** clusters, managing configurations and resource allocation for predictable rollouts.

SKILLS

Languages – Java, Python, SQL, JavaScript, TypeScript, R, Angular

Frameworks & Libraries – Spring Boot, Spring Cloud, Hibernate, JPA, Flask, FastAPI, scikit-learn, pandas, NumPy, React, Angular, NestJS

Databases & Storage – PostgreSQL, MySQL, Oracle, Apache Cassandra, Elasticsearch, S3

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Tools & Methodologies – Jira, Confluence, Agile, Scrum, TDD, BDD, CI/CD, Splunk, Dynatrace, PagerDuty, Grafana, Maven, NPM, Webpack, JUnit, Jasmine, JBehave, Selenium

BI & Data Analytics – Power BI, Tableau, DAX, Power Query, RStudio, Data Warehousing, ETL

Concepts – Microservices, REST APIs, Concurrent Programming, Threading, Observability, Continuous Deployment, Algorithmic Programming

PROJECTS

Enterprise Java Microservice Orchestration

- Engineered a suite of **Java Spring Boot** microservices for an internal ERP integration platform, handling approximately 5,000 requests per hour.
- Integrated services using **Hibernate** for data persistence with **PostgreSQL**, ensuring data integrity and efficient transaction management.
- Implemented comprehensive unit and integration tests using **JUnit**, achieving over 85% code coverage for critical business logic.

Real-Time Transaction Processing Dashboard

- Developed a Python-based data pipeline to ingest and process real-time transaction data from multiple sources, supporting an enterprise financial operations dashboard.
- Built automated reporting scripts using **Python** and **pandas**, generating daily summaries that reduced manual reporting effort by **~40%** for the operations team.
- Designed and implemented SQL queries across **PostgreSQL** and **Oracle** databases for data validation and reconciliation, ensuring accuracy of ~1.5 million transaction records weekly.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
