HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, implementing **RESTful APIs** for inter-service communication and data exchange, processing an average of **~500 requests per second**.
- Engineered and managed persistence layers using **Hibernate** and **JPA**, optimizing database interactions for an enterprise application supporting **over 10,000 concurrent users**.
- Designed and implemented object-oriented solutions in **Java**, adhering to design patterns and achieving **90%+ unit test coverage** with JUnit and Mockito for core modules.
- Contributed to **code reviews** and technical estimations within an **Agile** framework, ensuring adherence to software design principles and best practices.
- Gained exposure to **NoSQL databases**, contributing to the integration of a document store for handling unstructured data within a key enterprise system.
- Collaborated with cross-functional teams on **sprint planning** and technical problem-solving, debugging complex issues across distributed application components.
- Deployed containerized applications using **Docker** and managed infrastructure on **AWS EC2** instances, configuring basic resource limits and monitoring.

SKILLS

Languages – Java, Python, SQL, R, TypeScript

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI, React, Angular

Databases – PostgreSQL, MySQL, Oracle, NoSQL

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Tools/Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, RStudio

Methodologies – Agile, Scrum, CI/CD, TDD, BDD, DevOps, SRE

PROJECTS

Enterprise Java Application Modernization

- Refactored a monolithic Java application into a suite of **Spring Boot microservices**, improving modularity and deployment speed.
- Implemented data persistence using **Hibernate** and **PostgreSQL**, optimizing complex queries that reduced data retrieval times by **~30%**.
- Developed **RESTful APIs** for internal consumption, enabling seamless integration with other enterprise systems and enhancing data accessibility.

Automated Financial Transaction Processing Pipeline

- Created a **Python**-based ETL pipeline to ingest, transform, and validate financial transaction data from multiple sources.
- Automated scheduled reporting using **pandas** and SQL scripts, delivering daily operational summaries to business stakeholders.
- Containerized the pipeline components using **Docker** for consistent deployment across development and production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
