HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, designing and implementing **REST APIs** for cross-service data exchange, handling over 500 requests per second.
- Engineered **Hibernate** and **JPA** persistence layers for enterprise applications, optimizing database interactions and ensuring data integrity across **PostgreSQL** and **Oracle**.
- Implemented robust unit and integration tests using **JUnit** and **Mockito**, achieving over 85% code coverage for critical Java modules and reducing post-deployment defects by **30%**.
- Contributed to the design and implementation of software modules supporting enterprise applications, gaining full **SDLC** experience from infrastructure to cloud delivery.
- Participated in code reviews and sprint planning sessions, providing technical estimations and advocating for continuous improvement in team productivity and quality.
- Gained experience with **Amazon Web Services** (AWS) services including **EC2**, **S3**, and **Lambda**, contributing to cloud-native application development and deployment.
- Containerized applications using **Docker** and deployed to **Kubernetes** clusters, managing configurations and resource allocation within a CI/CD pipeline managed by **Jenkins**.

SKILLS

Languages – Java, Python, SQL, TypeScript, JavaScript, HTML, CSS, R

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI, React, Node.js

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, Gradle, CDK, CodePipeline, CodeBuild

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Jira, Confluence, Splunk, Dynatrace, Tableau, Power BI, Power Query, DAX, RStudio

Methodologies – Agile, Scrum, SDLC, QA Methodology

PROJECTS

Enterprise Java Application Modernization

- Refactored legacy Java components into modern **Spring Boot** microservices, improving system modularity and maintainability for an enterprise client.
- Implemented a new persistence layer using **JPA** and **Hibernate**, optimizing complex queries against a large **PostgreSQL** database and reducing data retrieval times by **20%**.
- Developed comprehensive integration tests with **JUnit**, ensuring seamless communication between newly developed services and existing backend systems.

Cloud-Native Microservice Deployment Automation

- Automated the deployment of **Java Spring Boot** microservices to **AWS EKS** using **Docker** containers and **Jenkins** pipelines, reducing manual deployment effort by **40%**.
- Configured **Kubernetes** resource manifests and integrated **AWS CloudWatch** for application monitoring and logging, enabling faster issue detection.
- Wrote shell scripts to streamline build and deployment processes, ensuring consistent environment setup across development and staging.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
