HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported **production incidents** for enterprise applications, performing **root cause analysis** using **Splunk** and **Dynatrace** to resolve **P1/P2 issues** within SLA targets.
- Developed **Python scripts** to automate data extraction and transformation tasks, improving the efficiency of scheduled reporting processes by approximately **30%**.
- Managed **database schema changes** and performed **data validation** across **PostgreSQL** and **MySQL** environments for financial operations systems.
- Contributed to **structured improvement projects** focused on increasing service efficiency and reducing costs for heavy equipment operations.
- Analysed **service processes** and operational data to identify opportunities for enhancing **turnaround time** and customer satisfaction.
- Collaborated with experienced engineers and technical specialists to support **fault diagnosis** and troubleshooting of complex equipment issues.
- Collected and interpreted **operational data** to inform performance decisions and support continuous improvement initiatives in a workshop environment.

SKILLS

Core Engineering – Mechanical Engineering, Electrical Engineering, Electronic Engineering, Hydraulic Systems, Problem-Solving, Root Cause Analysis, Safety Awareness, Commercial Awareness.

Data Analysis & BI – Data Interpretation, Performance Analysis, Operational Data, Process Improvement, Continuous Improvement, Lean, Waste Reduction, Digital Enhancements.

Technical Skills – Diagnostic Tools, Technical Procedures, Service Documentation, Job Cards, Technical Reports.

Software & Tools – Python, Java, SQL, Spring Boot, AWS, Docker, Linux, Git, Jenkins, Jira, Splunk, Dynatrace, Power BI, Tableau.

Methodologies – Agile, Scrum, Change Management, Continuous Improvement, Structured Improvement Projects.

PROJECTS

Equipment Maintenance Operations Dashboard

- Developed a **Java Spring Boot application** to monitor and manage maintenance schedules for a fleet of over **500** heavy equipment units.
- Integrated with **PostgreSQL** to store and retrieve service records, fault logs, and parts inventory data, enabling real-time status updates.
- Designed and implemented RESTful APIs to facilitate data exchange with external inventory management systems and internal reporting tools.

Service Performance Data Analysis Platform

- Built automated **Python data pipelines** to ingest and clean operational data from diverse sources, including maintenance logs and diagnostic tool outputs.
- Created interactive **Power BI dashboards** to visualise key service metrics such as **repair turnaround times**, equipment uptime, and technician efficiency, presenting findings to operations management.
- Applied statistical methods to identify trends in equipment failures and recommend proactive maintenance strategies, aiming to reduce unscheduled downtime by an estimated **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
