HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported planned maintenance and repair activities on **Caterpillar equipment** under direct supervision, ensuring adherence to technical specifications.
- Assisted experienced engineers with **fault diagnosis** and troubleshooting for complex mechanical and electrical systems, documenting findings.
- Contributed to structured improvement projects focused on enhancing **service performance** and operational efficiency within the workshop environment.
- Collected and interpreted **operational data** from service reports to identify trends and support data-driven performance decisions.
- Collaborated with a team of 5 engineers and technical specialists to resolve service issues and improve customer outcomes.
- Maintained accurate **service documentation**, including job cards and technical reports, ensuring completeness and compliance with company standards.
- Participated in daily stand-ups and **Agile ceremonies**, contributing to sprint planning and task estimation for service operations.

SKILLS

Equipment – Caterpillar, Heavy Equipment, Plant Machinery

Engineering – Mechanical Engineering, Electrical Engineering, Electronic Engineering, Mechatronics, Automotive Engineering

Operations – Service Operations, Maintenance, Diagnostics, Repairs, Planned Maintenance, Inspections

Analysis – Data Analysis, Process Analysis, Performance Analysis, Root Cause Analysis

Improvement – Continuous Improvement, Lean, Waste Reduction, Standardisation, Digital Enhancements

Tools – Diagnostic Tools, Technical Reports, Job Cards

PROJECTS

Equipment Diagnostics Enhancement Initiative

- Developed a Python script to parse and analyze historical diagnostic logs from **heavy equipment**, identifying common failure patterns across a fleet of 50+ machines.
- Created a series of **Power BI dashboards** to visualize diagnostic data, pinpointing recurring issues related to hydraulic systems and flagging them for proactive maintenance.
- Collaborated with a senior engineer to refine troubleshooting guides based on the analyzed data, reducing average fault diagnosis time by approximately **15%** for identified issues.

Service Process Optimization for Workshop Efficiency

- Mapped existing service workflows for equipment repair, identifying bottlenecks in parts procurement and technician assignment.
- Implemented a standardized checklist for pre-service inspections using **Jira**, improving consistency and reducing missed steps by an estimated **20%**.
- Assisted in coordinating User Acceptance Testing (UAT) for updated service procedures with operations teams, gathering feedback for final revisions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
