PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained the end-to-end lifecycle of a **Flutter mobile app** for iOS and Android, ensuring feature parity with the web platform.
- Integrated the **Flutter app** with existing backend APIs to deliver core functionality, handling data synchronization and user authentication flows.
- Collaborated with the wider software and IT team on release planning, deployment strategies, and prioritizing new feature development for the mobile application.
- Designed and implemented **secure data handling mechanisms** and safeguards for personal member data, adhering to GDPR principles from the design stage.
- Managed the **full codebase ownership** of the mobile application, including ongoing maintenance, bug fixing, and performance optimization.
- Participated in **Agile ceremonies** and sprint planning sessions, contributing to technical estimations and roadmap discussions for the mobile product.
- Containerized application components using **Docker** and deployed to a cloud environment, ensuring consistent build and runtime configurations.

SKILLS

Mobile Development – Flutter, iOS, Android

Backend Integration – REST APIs, API Integration

Development Practices – Agile, Scrum, Code Ownership, Code Reviews, CI/CD

Security & Compliance – GDPR, Data Protection, Security-First Development

Cloud & Containerization – Docker, AWS (EC2, S3, Lambda, CloudWatch)

Programming Languages – Dart, Java, Python, SQL

PROJECTS

Flutter-Based Gym Member Application

- Owned the development of a **cross-platform mobile app** using **Flutter**, targeting both iOS and Android users for a fitness chain.
- Implemented features such as class booking, membership management, and workout tracking by integrating with **backend REST APIs**.
- Ensured adherence to **GDPR compliance** and security best practices in handling user personal data and activity logs.

Internal Tooling Platform Enhancement (Java/Spring Boot)

- Developed new RESTful endpoints using **Java Spring Boot** to support internal operational dashboards, enhancing data retrieval capabilities for business analysts.
- Integrated with a **PostgreSQL database** for storing and querying operational metrics, ensuring data integrity through schema updates and validation scripts.
- Participated in code reviews and contributed to the CI/CD pipeline using **Jenkins** for automated testing and deployment of Java services.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
