HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained the **Flutter** mobile application (iOS and Android) from end-to-end, aligning with product roadmap objectives.
- Integrated the mobile application with existing **backend APIs** to support core functionalities, ensuring data consistency across platforms.
- Collaborated with the wider software and IT team on release cycles, prioritizing features and coordinating deployment schedules for the mobile app.
- Designed and implemented secure data handling mechanisms, adhering to **GDPR** principles for the protection of member information.
- Managed the full lifecycle of the mobile app codebase, including feature development, bug fixing, and performance optimization.
- Participated in technical discussions and planning sessions with **business owners** to define priorities and refine the product roadmap.
- Containerized the application's build and deployment processes using **Docker**, streamlining the CI/CD pipeline for faster releases.

SKILLS

Mobile Development – Flutter, iOS, Android, Cross-platform

Backend Integration – REST APIs, API Integration, Web Services

Development Methodologies – Agile, Scrum, CI/CD, Code Reviews

Security & Compliance – GDPR, Data Protection, Security-First Development

Tools & Technologies – Docker, Git, Jira, Confluence, Dart

PROJECTS

Member Engagement App Development (HCL Technologies)

- Engineered a cross-platform mobile application using **Flutter** to enhance member engagement and streamline access to gym services.
- Implemented **API integrations** with existing member management systems to fetch and display user profiles, class schedules, and booking status.
- Designed a user-friendly interface with intuitive navigation, enabling members to manage their accounts and access facility information efficiently.

Internal Tooling Platform Modernization (HCL Technologies)

- Refactored legacy backend services to use modern **Java Spring Boot** principles, improving maintainability and performance.
- Developed RESTful APIs to support a new internal dashboard, facilitating real-time operational monitoring and data retrieval.
- Containerized the modernized services using **Docker** and deployed them to an AWS EC2 environment, enhancing scalability and deployment speed.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
