PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed customer interaction data to identify key drivers of dissatisfaction, presenting findings that informed a new agent training module which reduced repeat contacts by **15%**.
- Prepared and delivered weekly insight summaries and interactive visualizations to client stakeholders, translating complex data into actionable recommendations for service improvement.
- Collaborated with client delivery teams to define project scope and gather requirements for analytics initiatives, ensuring alignment between business needs and technical implementation.
- Identified opportunities for process optimization within customer support workflows, quantifying the potential operational impact and associated risks to senior management.
- Developed and maintained **Power BI dashboards** and reports for tracking key customer experience metrics, enabling real-time monitoring of service performance for an international client base.
- Extracted and transformed customer interaction data from various sources using **SQL** and **Power Query**, preparing datasets for analysis and visualization in **Power BI**.
- Managed the end-to-end lifecycle of analytics projects, from initial scoping and data collection through to final report delivery and stakeholder buy-in.

SKILLS

Analytics & BI Tools – Power BI, Tableau, Power Query, DAX

Data Analysis & Modelling – SQL, Data Warehousing, Statistical Methods, Exploratory Data Analysis, A/B Testing, Time-Series Analysis

Programming & Scripting – Python, R, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch)

Development Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile/Scrum

PROJECTS

Customer Sentiment Analysis Dashboard (MSc Project)

- Developed an interactive **Power BI dashboard** to visualize customer feedback trends and sentiment scores, integrating data from multiple sources using **Power Query**.
- Applied **Python** and **scikit-learn** to perform sentiment analysis on ~50,000 customer survey responses, identifying key themes and sentiment drivers.
- Designed and implemented **DAX measures** within Power BI to track sentiment shifts over time and correlate them with operational metrics, presenting findings to an academic review board.

Operational Efficiency Reporting Platform (HCL Technologies)

- Engineered automated **Python** scripts to extract, transform, and load operational data from enterprise systems into a data warehouse for reporting purposes.
- Created scheduled reports and alerts using **SQL** queries against **PostgreSQL** and **Oracle** databases to monitor system performance and identify anomalies.
- Collaborated with operations teams to refine reporting requirements, ensuring the generated insights directly supported SLA management and incident response.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
