PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Partnered with business stakeholders to capture requirements and translate them into scalable **Salesforce** solutions within an **Agile/SAFe** framework, ensuring alignment across business, technical, and QA teams.
- Drove end-to-end delivery of multiple initiatives, proactively managing timelines, dependencies, and cross-team coordination for complex, multi-stream projects.
- Led design discussions and contributed to architecture decisions for the **Salesforce Lightning platform**, bringing best practices for **M&A; system integration** and **data migration** to programs.
- Managed stakeholder engagements across geographies, providing clear status updates and influencing decisions through data-driven insights and solution walkthroughs.
- Supported platform expansion across newly integrated entities, ensuring consistent delivery of high-quality, scalable solutions by collaborating with cross-functional teams.
- Developed and maintained key documentation including **user stories**, functional specifications, and design artifacts to support iterative development cycles.
- Provided ongoing recommendations and strategic insights aligned to the product roadmap, identifying opportunities for continuous improvement and successful business use case outcomes.

SKILLS

Salesforce – Salesforce Administrator, Sales Cloud Consultant, Salesforce Lightning Platform, M&A; System Integration, Data Migration, System Integrations, Data Management, Salesforce Mobile

Methodology – Agile, SAFe, Scrum Ceremonies, Requirements Gathering, Stakeholder Management, Cross-functional Collaboration, Matrix Leadership

Tools & Technologies – Excel, BI Tools, User Stories, Functional Specs, Design Artifacts

Programming & Scripting – Python, Java, SQL

Cloud & Infrastructure – AWS, Docker, Linux, Jenkins

Data Analysis & BI – Power BI, Tableau, DAX, Power Query

PROJECTS

Salesforce Acquisition Integration & Platform Expansion

- Led the integration of a newly acquired entity onto the core **Salesforce platform**, mapping and migrating data from legacy systems using custom **ETL processes**.
- Designed and implemented new **Sales Cloud functionality** and workflows to support expanded business use cases, collaborating with the acquired entity's stakeholders.
- Developed comprehensive **user documentation** and conducted training sessions for end-users on the integrated platform, facilitating smooth adoption and reducing post-launch support tickets by **~18%**.

Global Enterprise Salesforce Transformation Program

- Contributed to the design and delivery of scalable **Salesforce solutions** across multiple global teams, focusing on **Agile/SAFe** delivery standards and best practices.
- Partnered with business stakeholders to define requirements for new platform features, translating them into actionable **user stories** and technical specifications.
- Facilitated cross-geography design discussions, ensuring alignment on technical architecture and solution design for the **Salesforce Lightning platform**.
