HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **AWS cloud infrastructure** using **Terraform** for provisioning EC2 instances, S3 buckets, and VPC configurations, reducing manual setup time by **40%**.
- Implemented **CI/CD pipelines** using **Jenkins** and **Git** for automated application builds, testing, and deployments to **EKS** clusters, improving deployment frequency by **3x**.
- Managed and scaled containerized applications on **Kubernetes (EKS)**, configuring deployments, services, and ingress controllers to ensure high availability and efficient resource utilization.
- Authored **Python scripts** to automate infrastructure tasks, including log analysis, resource monitoring, and security group management, reducing operational overhead for the team.
- Configured and maintained **Splunk** and **CloudWatch** for comprehensive monitoring, alerting, and log aggregation across distributed systems, enabling proactive incident detection.
- Participated in **production incident management**, performing root cause analysis and implementing corrective actions for P1/P2 issues impacting critical enterprise services.
- Designed and implemented **disaster recovery** strategies and **high availability** solutions within the AWS environment, ensuring business continuity.

SKILLS

Cloud Platforms – AWS, EC2, ECS, EKS, VPC, IAM, Lambda, S3, CloudWatch

Infrastructure as Code – Terraform

Containerization & Orchestration – Kubernetes, Docker, EKS

CI/CD & DevOps – Jenkins, Git, DevOps, SRE

Scripting & Automation – Python, Shell Scripting

Monitoring & Observability – Splunk, CloudWatch

PROJECTS

AWS Infrastructure Automation with Terraform

- Provisioned core AWS infrastructure including **VPCs**, **subnets**, and **security groups** using **Terraform**, enabling consistent and repeatable environment deployments.
- Automated the deployment of **EC2 instances** and **RDS databases** through Terraform modules, reducing environment setup time from days to hours.
- Integrated Terraform with **Jenkins** for an automated IaC pipeline, ensuring infrastructure changes were version-controlled and auditable.

Kubernetes Cluster Management and Monitoring

- Deployed and managed microservices on an **AWS EKS** cluster, configuring **Kubernetes deployments**, **services**, and **Ingress** controllers.
- Implemented centralized logging and monitoring for the Kubernetes cluster using **CloudWatch Container Insights** and **Splunk Forwarders**, providing real-time visibility into application performance.
- Developed shell scripts to automate routine cluster maintenance tasks, such as certificate rotation and node health checks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
