HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java** backend services, implementing features and resolving defects within an enterprise software environment.
- Designed and implemented **RESTful APIs** for cross-service communication, ensuring efficient data exchange and integration between distributed systems.
- Authored **Hibernate** queries and managed persistence layers for relational databases, supporting complex data models and transactional integrity.
- Participated in **code reviews**, providing constructive feedback to peers and incorporating suggestions to enhance code quality and maintainability.
- Contributed to **Agile ceremonies**, including sprint planning and daily stand-ups, to align on project goals and track progress effectively.
- Investigated and troubleshot production defects, performing root-cause analysis to identify underlying issues and implement lasting solutions.
- Containerized **Java** applications using **Docker**, preparing them for deployment and managing configurations within a cloud-native environment on **AWS**.

SKILLS

Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JUnit, pandas, NumPy, scikit-learn

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Git, Jenkins, Jira, Confluence, Splunk, Dynatrace

Methodologies – Agile, Scrum, CI/CD

PROJECTS

Enterprise Java Service Modernization

- Re-architected a legacy Java module into a **Spring Boot** microservice, improving performance by **22%** through optimized database interactions.
- Implemented **RESTful APIs** for core business logic, facilitating seamless integration with upstream and downstream enterprise applications.
- Developed comprehensive **JUnit** test suites, achieving over **90%** code coverage for critical service endpoints and ensuring application stability.

Automated Reporting Pipeline with Python

- Engineered a **Python** data pipeline using **pandas** to automate the aggregation of operational metrics from multiple SQL databases.
- Developed scheduled jobs to generate and distribute daily performance reports, reducing manual effort by approximately **15 hours** per week for the operations team.
- Integrated the pipeline with **AWS S3** for scalable data storage and retrieval, ensuring data availability for downstream analytics.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
