HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Monitored **enterprise Java/.NET applications** using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and managing SLAs to ensure service availability.
- Developed **Python scripts** for automation, including ETL processes and scheduled reporting tasks, improving data processing efficiency for operations teams.
- Executed **SQL queries** and performed data validation across **PostgreSQL** and **MySQL** databases for ad-hoc reporting and system integration tasks.
- Contributed to **Java Spring Boot** feature development, including bug fixes and the creation of **REST APIs** for internal services.
- Responded to production system alerts, triaging, resolving, and escalating issues to minimize customer impact and adhere to incident management processes.
- Advised application development teams on **code rollback** procedures and coordinated with DBAs to address **SQL blocking** on critical systems.
- Managed incident triage, ensuring only critical issues requiring immediate attention were escalated, thereby enabling daytime engineers to focus on project work.

SKILLS

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

Programming Languages – Java, Python, SQL, Linux Shell Scripting

Frameworks & Libraries – Spring Boot, Flask, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud & Containerization – AWS (EC2, S3, Lambda), Docker

CI/CD & Version Control – Jenkins, Git

Enterprise Systems & Tools – Jira, Confluence, Incident Management, Change Management

PROJECTS

Production Incident Response and Automation (HCL Technologies)

- Managed the full lifecycle of production incidents for enterprise applications, from alert detection using **Splunk** and **Dynatrace** to root cause analysis and resolution.
- Automated repetitive operational tasks using **Python scripting**, reducing manual effort for log analysis and report generation by an estimated **30%**.
- Collaborated with cross-functional teams, including operations and business analysts, to gather requirements for system enhancements and support UAT cycles.

Enterprise Systems Integration Support (HCL Technologies)

- Supported and integrated with enterprise business systems, including ERP modules, by developing and maintaining **REST APIs** for data exchange.
- Performed database-level data flow management and schema changes across **PostgreSQL** and **Oracle** databases to facilitate system integrations.
- Coordinated change-control management for system configuration updates, ensuring smooth post-go-live support across interconnected platforms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
