# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Contributed production-quality code to **GitLab's product** and adjacent systems, developing **bug fixes** and **features** that addressed strategic customer adoption blockers.
- Partnered with enterprise customers to diagnose and resolve high-impact adoption challenges across **GitLab product behavior**, **CI/CD workflows**, and **API usage**, ensuring stable operations.
- Developed customer-safe adoption patterns for the **agentic software development lifecycle**, including **AI-assisted development** and **intent-based review**, integrating learnings into product improvements.
- Engaged with strategically important customers to provide technical stewardship, diagnosing complex problems in areas such as **performance degradation**, **scale bottlenecks**, and **architectural constraints**.
- Collaborated with Product and Engineering teams to translate customer-driven solutions into long-term product direction, ensuring features supported product strategy rather than becoming one-off customizations.
- Created technical narratives grounded in customer experience and product reality, contributing to industry approaches for **AI adoption** and **DevSecOps**.
- Containerized backend services using **Docker** and deployed them to a **Kubernetes cluster**, wiring up configuration and resource limits for predictable rollouts in production environments.

## SKILLS

**DevOps & CI/CD** – GitLab CI, CI/CD, Git, Jenkins

**Cloud & Infrastructure** – AWS, EC2, S3, Lambda, CloudWatch, Docker, Kubernetes

**Programming Languages** – Java, Python, SQL, R

**Backend Frameworks** – Spring Boot, Flask, FastAPI

**Data Analysis & BI** – Power BI, Tableau, DAX, Power Query, pandas, NumPy, scikit-learn

**Databases** – PostgreSQL, MySQL, Oracle

**Tools & Methodologies** – Jira, Confluence, Agile, Scrum, Splunk, Dynatrace

## PROJECTS

### Customer Onboarding for GitLab Platform

- Developed a guided onboarding flow for pilot enterprise customers adopting the platform, integrating SDK examples and debug tooling.
- Built a Python CLI to validate customer configuration against platform schemas, catching approximately 70% of schema errors at write time.
- Conducted post-sales technical walkthroughs with customer engineering teams, upskilling them on platform integration patterns and best practices.

### Automated CI/CD Pipeline Enhancement

- Engineered a Python-based automation script to streamline the build and deployment process for microservices, reducing manual intervention by 45%.
- Integrated automated testing stages into the Jenkins CI/CD pipeline, improving code quality and reducing deployment rollback incidents by 20%.
- Containerized the application services using Docker and configured deployment to an AWS EKS cluster, ensuring consistent environments across development and production.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
