HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and coded connective tissue for customer infrastructure, integrating **Google's AI products** with their live systems, including APIs and data silos, as part of an expert team.
- Developed **production-grade agentic workflows** that drive measurable ROI, transitioning from rapid prototypes to complex multi-agent systems and MCP servers.
- Built high-performance **evaluation pipelines** and observability frameworks to ensure agentic systems meet requirements for accuracy, safety, and latency.
- Authored **Python scripts** to automate data ingestion and ETL processes for large datasets, reducing manual effort by approximately 15 hours per week.
- Developed and maintained **REST APIs** using Java Spring Boot, facilitating seamless data exchange between microservices and supporting an average of 500 requests per minute.
- Containerized **Java Spring Boot applications** using Docker and deployed them to an AWS Elastic Beanstalk environment, improving deployment consistency and reducing setup time by 40%.
- Managed incident response and performed root cause analysis for P1/P2 incidents on enterprise applications, ensuring adherence to strict SLAs and maintaining system stability using **Splunk** and **Dynatrace**.

SKILLS

AI/ML – Generative AI, GenAI, LLM, RAG, Agentic Workflows, Multi-Agent Systems, Prompt Engineering, Vector Databases, Model Serving, AI System Architecture

Programming Languages – Python, Java, SQL

Cloud Platforms – Google Cloud Platform (GCP), AWS (EC2, S3, Lambda, CloudWatch)

Frameworks & Libraries – Spring Boot, FastAPI, LangGraph, CrewAI, scikit-learn, pandas, NumPy

Databases – PostgreSQL, MySQL, Oracle, Vector Databases

Tools & Technologies – Docker, Kubernetes, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, R, DAX, Power Query

PROJECTS

Customer AI Agent Development Platform

- Architected and developed a platform in **Python** and **FastAPI** to enable enterprise customers to build and deploy custom AI agents for internal workflows.
- Integrated **RAG architectures** and vector database lookups to provide agents with access to proprietary customer data, improving response relevance by an estimated 30%.
- Designed and implemented a **CI/CD pipeline** using Jenkins and Docker for automated testing and deployment of customer agent configurations, reducing deployment cycles from days to hours.

GenAI Solution Integration for Enterprise Client

- Collaborated with a client's engineering team to integrate a **GenAI** solution into their existing CRM system, enhancing customer support capabilities.
- Developed custom **Python** scripts for data preprocessing and fine-tuning a language model on client-specific documentation, achieving a 15% improvement in task completion accuracy.
- Provided technical guidance and best practices for deploying and scaling the AI solution on **Google Cloud Platform**, ensuring high availability and low latency.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
