PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Served as the primary technical contact for **early-stage retailer pilots** in EMEA, providing **technical guidance** and **integration support** for new partners.
- Developed **code samples** and **integration recipes** in Python and Java for the **Universal Commerce Protocol (UCP)**, expediting partner testing and validation on the developer portal.
- Provided **high-touch technical subject matter expertise** and **issue resolution** for strategic retail partners, maintaining defined service level agreements for critical integrations.
- Collaborated with **Google Engineering** and **Product Management** teams to test new protocol capabilities and harden specifications, influencing product direction.
- Synthesized pilot edge cases and partner telemetry data to advocate for **product and feature improvements**, driving data-driven insights for roadmap planning.
- Designed and implemented **REST APIs** in Java Spring Boot for cross-service data exchange, including request validation and circuit-breaker patterns to enhance system resilience.
- Containerized backend services using **Docker** and deployed to a **Kubernetes cluster** (EKS), configuring basic resource limits for predictable rollout and scaling.

SKILLS

Web Technologies – HTTP/REST, JSON, Webhooks, APIs

Programming Languages – Python, Java, TypeScript, JavaScript, Go

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Kubernetes, Docker

Frameworks & Libraries – Spring Boot, Node.js, NestJS

Databases – PostgreSQL, MySQL, Oracle

Ecosystems – E-commerce Platforms, Merchant Integration

Tools & Methodologies – Jenkins, Git, Jira, Agile, Scrum

PROJECTS

Partner Integration Accelerator for Commerce APIs

- Developed a suite of **Python scripts** and **Java code samples** to demonstrate integration patterns with the **Merchant API** and **Universal Commerce Protocol**, reducing average partner integration time by **~20%**.
- Created interactive tutorials and documentation for the developer portal, detailing common integration challenges and solutions for **e-commerce platforms**.
- Contributed to the design of a reference implementation for **API webhook** handling, ensuring robust error management and retry logic for high-volume transaction data.

Retailer Onboarding Framework (HCL Technologies)

- Engineered a flexible **Java Spring Boot** framework to streamline the onboarding of new enterprise retail clients onto a financial operations dashboard, supporting diverse data ingestion formats.
- Implemented **RESTful APIs** within the framework for configuration management and status reporting, enabling automated tracking of onboarding progress for an internal operations team.
- Collaborated with business analysts to gather requirements for the onboarding process, translating them into technical specifications that defined the integration workflows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
