PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and deployed **Python**-based data pipelines to ingest and transform data from enterprise systems, processing approximately **15,000 records** per hour for downstream analytics.
- Engineered and maintained **REST APIs** using **Java Spring Boot** to support cross-service communication, handling over **500 requests** per second during peak loads.
- Managed production incidents for enterprise applications on **AWS**, conducting root cause analysis and implementing fixes within strict **SLA** targets for critical P1/P2 issues.
- Built and ran **data pipelines** integrating Salesforce and HubSpot data into a central analytics platform, supporting GTM analytics models.
- Shipped **LLM-based agents** for sales automation, integrating with internal tools to streamline lead qualification and follow-up processes.
- Productionized **REST API integrations** between disparate business systems, ensuring robust error handling and comprehensive test coverage.
- Containerized backend services using **Docker** and deployed them to an **AWS EKS** cluster, automating deployment pipelines with **Jenkins**.

SKILLS

AI/ML – LLM application development, Prompting, Tool use, Evals, Generative AI

Programming Languages – Python, SQL, Java

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Databricks

Data Engineering – Data Pipelines, ETL, Data Ingestion, Data Transformation

Web Technologies – REST APIs, Spring Boot, Docker

Version Control & CI/CD – Git, Jenkins

Databases & CRM – PostgreSQL, MySQL, Oracle, Salesforce, HubSpot

PROJECTS

AI-Powered Sales Automation Agent

- Developed a generative AI agent using **LangChain** and **Python** to automate initial sales outreach by analyzing lead data from **Salesforce**.
- Integrated the agent with an internal **REST API** to log engagement details and update CRM records, processing approximately **100 leads** per day.
- Implemented prompt engineering strategies to ensure compliant and effective communication, reducing manual data entry time for the sales team by an estimated **20%**.

GTM Analytics Pipeline and Dashboard

- Built a **Python** data pipeline to aggregate and transform Go-To-Market data from **HubSpot** and **Stripe** into a structured format suitable for analysis.
- Developed interactive **Power BI** dashboards to visualize key performance indicators for sales and marketing teams, enabling data-driven decision-making.
- Ensured data quality and integrity through automated validation checks, reducing reporting errors by approximately **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
