PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided 24x7 production support for enterprise Java applications, managing P1/P2 incidents and ensuring adherence to service level agreements using **Splunk** and **Dynatrace**.
- Automated data extraction and reporting tasks using **Python scripting**, reducing manual effort by an estimated **15 hours per week** for the operations team.
- Developed and maintained REST APIs using **Java Spring Boot** for internal service integrations, handling approximately **500 requests per minute**.
- Researched, diagnosed, and resolved complex technical issues for Guidewire customers, analyzing **stack traces** and reviewing application code to identify root causes.
- Created and maintained technical knowledge base articles documenting resolutions for common customer-reported problems with Guidewire products, contributing to a **10% reduction** in repeat ticket escalations.
- Executed operational tasks including provisioning, configuration, and service restoration for customer cloud environments, coordinating with internal teams to meet **contractual SLAs**.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing setup time by **30%**.

SKILLS

Programming Languages – Java, Python, SQL, R, English

Frameworks & Libraries – Spring Boot, scikit-learn, pandas, NumPy, Hibernate, JPA

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau, Power Query, DAX

Methodologies – Agile, Scrum, Incident Management, Change Management

PROJECTS

Enterprise Java Application Support & Enhancement (HCL Technologies)

- Provided critical production support for a Java-based payments operations dashboard, managing incident response and resolving issues impacting transaction monitoring workflows.
- Developed new features and bug fixes in **Java Spring Boot** for the core application, including enhancements to data validation logic and API endpoints.
- Automated routine system checks and log analysis using **Python scripts**, reducing manual intervention for critical operational tasks by approximately **20%**.

MSc Data Analytics Project: Customer Transaction Analysis

- Developed a data pipeline using **Python** and **pandas** to ingest and clean customer transaction data from multiple sources, preparing it for analysis.
- Created interactive **Power BI dashboards** to visualize key transaction metrics, customer behaviour patterns, and operational performance indicators for business stakeholders.
- Applied statistical methods and **SQL** queries to analyze customer spending habits, identifying trends that informed strategic business decisions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
