PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and commissioned broadcast equipment including **cameras**, **switchers**, and **streaming infrastructure** for live events, ensuring readiness for production.
- Programmed and maintained **networked AV/IT**, **digital audio**, and **automation systems**, ensuring seamless operation during critical broadcasts.
- Monitored technical performance of audiovisual systems during live productions, resolving **technical faults** and minimising downtime with a focus on reliability.
- Performed preventative maintenance, system checks, and software/hardware/firmware updates across a range of **broadcast equipment** and **networked AV** installations.
- Managed ongoing **technical support**, warranty claims, and relationships with equipment manufacturers and suppliers to ensure operational continuity.
- Developed and maintained accurate **technical documentation**, including configuration records, maintenance logs, and incident reports for compliance and knowledge transfer.
- Containerized a Java Spring Boot application for a reporting service using **Docker** and deployed it to an **AWS EC2** instance managed via Jenkins pipelines.

SKILLS

AV/Broadcast – Dante, AES67, SMPTE ST 2110, Video-over-IP, Digital Audio Networks, Sound Processing Platforms, Control Systems

Broadcast Equipment – Production Switchers, Routers, Communications Systems, Replay Systems, Streaming Infrastructure, Encoders, Cameras

IT/Networking – Networked AV/IT, IP Systems, TCP/IP

Software & Tools – Q-SYS, Biamp, Crestron, AMX, Splunk, Dynatrace, Jenkins, Git, Jira, Confluence

Cloud & Virtualisation – AWS EC2, Docker

Programming Languages – Java, Python, SQL

Frameworks & Libraries – Spring Boot

PROJECTS

Enterprise AV System Integration (HCL Technologies)

- Integrated and configured **networked AV/IT** systems and **digital audio** platforms for an enterprise client's meeting rooms, supporting over 150 concurrent users.
- Developed Python scripts to automate the testing and validation of **broadcast equipment** configurations and network connectivity, reducing manual testing time by 40%.
- Documented system architectures and operational procedures for the integrated AV infrastructure, ensuring smooth handover to client IT support teams.

Live Event Production System Rollout

- Assisted in the setup, configuration, and testing of **production switchers**, **routers**, and **streaming infrastructure** for a large-scale corporate event.
- Monitored system performance and provided on-site technical support during live production phases, troubleshooting issues related to **video-over-IP** and audio routing.
- Maintained incident logs and post-event reports, identifying areas for workflow improvement in future event productions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
