PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the setup, configuration, and testing of **broadcast equipment**, including cameras, switchers, and replay systems for live event productions.
- Programmed and maintained **networked AV/IT systems** and digital audio platforms, ensuring seamless integration and operational readiness.
- Monitored technical performance during live productions, resolving issues to ensure uninterrupted operation and delivering technical guidance to production teams.
- Executed preventative maintenance schedules and performed software/hardware/firmware updates across a diverse range of audiovisual equipment.
- Diagnosed and resolved complex technical faults in high-pressure live production environments, minimizing downtime and restoring service rapidly.
- Authored comprehensive technical documentation, including configuration records, maintenance logs, and incident reports, ensuring compliance with client standards.
- Containerised AV control system components using **Docker** for consistent deployment across different staging and production environments.

SKILLS

AV & Broadcast – Broadcast Equipment, Cameras, Switchers, Routers, Audio Mixers, Replay Systems, Streaming Infrastructure, Video-over-IP, SMPTE ST 2110, Dante, AES67

Control & Networking – Networked AV/IT, Digital Audio, Automation Systems, Q-SYS, Biamp, Crestron, AMX, Control Systems

Support & Maintenance – Preventative Maintenance, System Checks, Software Updates, Hardware Updates, Firmware Updates, Technical Fault Diagnosis, Technical Support, Warranties

Leadership & Documentation – Technical Leadership, Mentoring, Knowledge Sharing, System Improvement, Technical Documentation, Configuration Records, Maintenance Logs, Incident Reports, Health and Safety

Core Technologies – Linux, Shell Scripting, CI/CD, Git, Docker, AWS (EC2, S3, Lambda, CloudWatch), Python, Java, SQL

PROJECTS

AV System Integration for Enterprise Client

- Designed and implemented a networked AV system integrating **Crestron control**, **Dante audio**, and **SMPTE ST 2110 video** for a high-profile client site.
- Configured and tested complex routing and switching matrices, ensuring reliable signal flow for live events and daily broadcasts.
- Developed operational runbooks and training materials for the client's technical staff on system operation and basic troubleshooting.

Automated AV Equipment Health Monitoring

- Developed Python scripts to automate the monitoring of critical AV equipment health status, integrating with device APIs and logging status to a central repository.
- Built a basic dashboard using **Flask** and **PostgreSQL** to visualize equipment uptime and alert on potential hardware failures before they impacted production.
- Implemented a scheduled reporting mechanism via cron jobs to provide weekly system health summaries to the operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
