HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed **REST APIs** using **Java Spring Boot** to facilitate data exchange between microservices, implementing request validation and circuit-breaker patterns.
- Engineered **Python scripts** for automating data ingestion and transformation tasks, building ETL pipelines that processed approximately **2TB of raw data** weekly.
- Managed production support for enterprise-grade **Java/.NET applications**, responding to P1/P2 incidents and ensuring adherence to strict SLAs using **Splunk** and **Dynatrace**.
- Integrated **APIs** with **3rd party vendors**, ensuring seamless data flow and consistent system behaviour across distributed engineering teams.
- Collaborated with a team of **4 junior engineers**, providing technical guidance and code review feedback to maintain high code quality and standards.
- Developed and maintained **highly scalable and high-performance systems**, focusing on efficient data processing and low-latency API responses.
- Containerised **Java Spring Boot applications** using **Docker** and deployed them to an **AWS EKS** cluster, managing configuration and resource allocation.

SKILLS

Languages – C#, Python, TypeScript

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch, EKS), Azure

Databases – SQL, PostgreSQL, MySQL, Oracle

Frameworks/Libraries – Spring Boot, .NET

Tools & Technologies – Kubernetes, Docker, Jenkins, Git, Splunk, Dynatrace, Jira, Confluence

Methodologies – Agile, Scrum

PROJECTS

Enterprise Java Microservice Refactor

- Modernized a legacy Java application by refactoring core components into a suite of **Spring Boot microservices**, improving modularity and maintainability.
- Implemented asynchronous communication patterns using **Kafka** to decouple services, enhancing system resilience and enabling event-driven data processing.
- Developed comprehensive **JUnit** test suites and integrated them into the **Jenkins CI/CD pipeline**, achieving over **85% code coverage** for critical services.

Automated Data Pipeline for Financial Reporting

- Built a robust **Python ETL pipeline** to extract, transform, and load data from disparate sources into a central data warehouse for regulatory reporting.
- Engineered complex **SQL queries** and stored procedures for data validation and aggregation, ensuring data accuracy for downstream analytical dashboards.
- Scheduled and monitored pipeline execution using **Airflow**, reducing manual reporting effort by approximately **20 hours per week**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
