PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Gathered and translated complex market research requirements from enterprise clients into actionable analysis plans, directly influencing product strategy for new market entries.
- Developed and maintained a repository of competitor intelligence reports, mapping feature sets and go-to-market strategies for over 15 key players in the digital solutions space.
- Authored comprehensive written reports and presented findings to senior leadership, highlighting emerging market trends and potential product development opportunities that shaped sales outreach.
- Contributed to product strategy discussions by analysing competitor behaviour and market gaps, providing data-driven recommendations that informed new feature prioritization for the sales team.
- Collaborated with sales and marketing teams to refine product messaging and identify new customer segments based on market research insights, improving lead qualification by **18%**.
- Analyzed digital landscape trends using Python scripting and statistical methods to identify shifts in customer adoption and technology preferences, informing strategic business decisions.
- Managed the production support for a financial-services operations dashboard, ensuring **SLA adherence** for critical transaction monitoring and incident response.

SKILLS

Market Research – Competitor Intelligence, Market Analysis, Digital Landscape, Reporting, Business Strategy

Data Analysis & Statistics – Python, R, SQL, Statistical Analysis, Data Visualization, Hypothesis Testing, Regression

Business Acumen – Product Strategy, Sales Enablement, CRM (Salesforce), Brand Awareness, Lead Generation, Client Communication

Software Engineering (Core) – Java Spring Boot, REST APIs, Python Scripting, ETL, SQL (PostgreSQL, MySQL, Oracle)

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, CI/CD, Jenkins, Git, Linux

BI & Reporting – Power BI, Tableau, DAX, Power Query, Data Modelling, Business Intelligence

PROJECTS

Competitor Analysis Platform Enhancement

- Designed and implemented Python scripts to automate the collection and initial parsing of competitor product data from public sources, reducing manual data entry time by **40%**.
- Developed a relational data model in PostgreSQL to store and query competitor feature matrices and pricing tiers, supporting ad-hoc analysis for the product strategy team.
- Created interactive Power BI dashboards to visualize competitor landscape shifts and identify key feature gaps, which were directly used in strategy offsite meetings.

Financial Operations Data Insights

- Built Python-based ETL pipelines to extract, transform, and load transaction data from disparate sources into a central data warehouse, supporting reconciliation workflows for a financial client.
- Developed automated reporting scripts in Python that generated daily summaries of transaction processing status and operational alerts, improving visibility for the operations team.
- Analyzed historical transaction data using SQL and pandas to identify patterns in payment failures, contributing to a targeted reduction in recurring issues by approximately **12%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
