PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported engineering and automation activities for manufacturing systems and laboratory equipment within a **GMP-regulated environment**, assisting senior engineers with system checks and basic fault-finding.
- Contributed to the preparation and updating of engineering documentation, including **User Requirements Specifications (URS)**, **Functional Requirements Specifications (FRS)**, and technical reports for automated systems.
- Assisted with change controls and deviation investigations, performing documentation updates in accordance with site procedures to maintain compliance.
- Participated in system upgrades and process improvement initiatives to enhance equipment reliability and operational efficiency, applying **GMP and site safety principles**.
- Collaborated with cross-functional teams, including Process Engineering, Automation, Maintenance, IT, Quality, and Validation, to achieve project objectives.
- Developed technical knowledge of pharmaceutical manufacturing systems, instrumentation, and process controls, gaining exposure to **Allen-Bradley and Siemens** platforms.
- Containerised automation scripts and utility applications using **Docker** for consistent deployment across development and production environments on **AWS EC2**.

SKILLS

Automation Platforms – Allen-Bradley, Siemens, Emerson DeltaV, PLC, SCADA, DCS

Engineering Documentation – URS, FRS, IQ, OQ, PQ, Technical Reports, Change Control, CAPA

Manufacturing Environment – GMP, GAMP 5, Data Integrity, Site Safety, Pharmaceutical Manufacturing

Core Engineering – Automation, Process Control, Instrumentation, Electrical, Electronic, Mechatronics, Chemical

Cloud & Containerization – AWS, EC2, Docker

Software Development – Java, Spring Boot, Python, SQL, REST APIs

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

PROJECTS

Process Automation System Upgrade (Horizon Controls Group)

- Assisted in the configuration and testing of **PLC and SCADA systems** for a critical manufacturing process line, contributing to improved operational control.
- Supported the creation of **IQ/OQ protocols** and executed test cases for new automation hardware and software integrations, ensuring compliance with GMP standards.
- Documented system changes and assisted in the preparation of handover documentation for the upgraded automation platform.

Manufacturing Data Reporting Dashboard (HCL Technologies)

- Developed an interactive **Power BI dashboard** to monitor key manufacturing process metrics, providing real-time insights to operations teams.
- Engineered **Python scripts** to extract, transform, and load data from disparate sources into a centralized repository for reporting purposes.
- Applied **SQL queries** against PostgreSQL to validate data integrity and populate reporting tables, ensuring accuracy for stakeholder consumption.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
