PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Prepared **Land Registry compliant maps** and **rectification maps** using **GPS surveying equipment** and **AutoCAD** for multiple IDA land parcels.
- Contributed to the development and maintenance of the agency's **GIS mapping system**, ensuring accurate data representation for asset management and client marketing.
- Assisted the legal team with **site due diligence** and **title investigation** for property acquisitions, reviewing property instructions and title burdens.
- Managed property-related documentation for the **legal conveyancing process**, including preparing instructions and ensuring accurate Declarations of Identity.
- Liaised with third-party consultants and engineers to facilitate the accurate setting out of sites and resolve boundary irregularities for land disposals.
- Updated and maintained **CAD mapping** data, ensuring consistency with the agency's land bank records and GIS system.
- Containerized legacy mapping services using **Docker** and deployed them to a managed **AWS EC2** environment, improving update deployment times by **40%**.

SKILLS

Mapping & Surveying – GPS surveying equipment, AutoCAD, ArcGIS, Land Registry compliant maps, Declarations of Identity, Site due diligence, Title investigation

GIS & Data Management – GIS mapping system, Data management, Data accuracy, Asset management, Geospatial platform

Property & Legal – Conveyancing, Property instructions, Title burdens, Boundary irregularities, Land acquisitions, Estate management

Software & Tools – AutoCAD, ArcGIS, GPS equipment, Docker, AWS EC2, Confluence, Jira

Core Competencies – Client focused relationship building, Project Management, Communications & personal effectiveness, Business & Property knowledge, Negotiation & Influencing, Creativity & Innovation

PROJECTS

Property Mapping System Enhancement (HCL Technologies)

- Developed a Python-based tool to automate the generation of **transactional maps** and **information maps** from raw survey data, reducing manual processing time by **30%**.
- Integrated the tool with an existing **PostgreSQL** database for storing and retrieving land parcel metadata, improving data retrieval efficiency.
- Designed and implemented a basic **API** using **Flask** to serve map data to internal stakeholders, facilitating quicker access to property boundaries.

GIS Data Quality & Compliance Initiative (HCL Technologies)

- Performed data validation and cleansing on a large dataset of **GIS** land records to ensure compliance with internal mapping standards and prepare for regulatory audits.
- Authored detailed documentation for data entry procedures and map generation protocols, which were adopted by the operations team to improve consistency across **~1,500** land records.
- Collaborated with business analysts to refine data requirements for new land acquisition projects, ensuring all necessary mapping attributes were captured.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
