HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **NestJS** backend services, implementing **RESTful APIs** for data exchange with frontend applications, processing approximately **1,500 requests per hour**.
- Built responsive and user-friendly **React** front-end interfaces, translating design mockups into functional components and ensuring cross-browser compatibility.
- Integrated third-party services and backend systems, including implementing **authentication and authorization** flows to secure API endpoints.
- Designed data models and wrote complex queries for **MySQL** databases, optimizing performance to reduce average query execution time by **20%**.
- Collaborated with cross-functional teams using **Agile/Scrum** methodologies, participating in sprint planning, daily stand-ups, and code reviews to ensure timely delivery of features.
- Troubleshot and debugged technical issues across the stack, resolving an average of **5 critical bugs per sprint** to ensure application reliability and security.
- Containerized applications using **Docker** and managed deployments in **Linux** hosting environments, streamlining the deployment process.

SKILLS

Backend Frameworks – NestJS, Laravel, Spring Boot

Frontend Technologies – React, JavaScript, TypeScript, HTML, CSS

Databases – MySQL, MongoDB, OrientDB, PostgreSQL, Oracle

API Development – RESTful APIs, API Integration

DevOps & Tools – Git, Docker, Linux, Jenkins, Jira, Confluence

Programming Languages – JavaScript, TypeScript, Python, Java

Methodologies – Agile, Scrum, MVC Architecture

PROJECTS

Enterprise Web Application with NestJS & React

- Developed a full-stack enterprise application featuring a **NestJS** backend and **React** frontend, serving as a platform for internal business process management.
- Implemented robust **RESTful APIs** for seamless data flow between frontend and backend, handling user authentication and data persistence in **MySQL**.
- Collaborated with business analysts to refine requirements and conducted peer code reviews, ensuring adherence to coding standards and maintainability.

Data Integration and API Service

- Built a Python-based service to integrate data from disparate sources, transforming and loading into a centralized **MySQL** database.
- Exposed integrated data via a **RESTful API**, enabling other internal systems to consume curated information for reporting and analytics.
- Containerized the API service using **Docker** for consistent deployment across development and staging environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
