PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **web applications** using **Laravel**, integrating **RESTful APIs** and third-party services for enterprise clients.
- Built responsive and user-friendly **front-end interfaces** with **HTML**, **CSS**, and **JavaScript**, adhering to modern design principles.
- Designed and optimized **MySQL databases**, focusing on application performance and system scalability for high-traffic platforms.
- Implemented robust **authentication and authorization** mechanisms and managed background **job processing** queues within a microservices architecture.
- Collaborated with cross-functional teams in an **Agile/Scrum** environment to deliver integrated software solutions, participating in daily stand-ups and sprint planning.
- Supported application deployment and maintenance across **Linux** and cloud hosting environments, ensuring continuous availability and reliability.
- Containerized services using **Docker** and deployed to **AWS EC2** instances, managing configurations and scaling resources to meet demand.

SKILLS

Backend Development – PHP, Laravel, Go, Java, Spring Boot, Microservices Architecture, RESTful APIs

Frontend Development – HTML, CSS, JavaScript, React.js, Next.js, Responsive Design

Databases – MySQL, Database Design, Query Optimization

DevOps & Cloud – Linux, AWS, Docker, Git, CI/CD, Jenkins

Methodologies & Practices – Agile, Scrum, Software Design Principles, Design Patterns, Code Reviews, Testing, Debugging, Web Security, Caching, Queues

PROJECTS

Laravel E-commerce Platform Development

- Engineered a full-stack e-commerce platform using **Laravel**, implementing features for product management, order processing, and user accounts.
- Integrated third-party payment gateway APIs, ensuring secure and efficient transaction handling across the application.
- Developed a responsive customer-facing interface with **HTML**, **CSS**, and **JavaScript**, optimizing for user experience on various devices.

Internal API Service with Go and PostgreSQL

- Developed a microservice in **Go** to manage internal business logic and data synchronization, exposing functionality via **RESTful APIs**.
- Designed and managed the **PostgreSQL** schema to support the service's data requirements, optimizing queries for performance.
- Containerized the Go service using **Docker** for consistent deployment across development and production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
