# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Developed and executed manual test cases for **web applications** and **APIs**, ensuring adherence to functional requirements and design specifications.
- Designed, developed, and maintained automated test scripts using **Playwright**, focusing on core user flows and critical integration points.
- Identified, documented, and tracked software defects using **Jira**, performing thorough regression testing to validate fixes and prevent reoccurrences.
- Collaborated with developers and product stakeholders to review **business requirements** and technical specifications, proactively raising quality risks before development.
- Contributed to the improvement of QA processes by enhancing **test strategies** and automation frameworks, aiming to increase overall product quality and release efficiency.
- Participated in **Agile/Scrum ceremonies**, providing QA input during sprint planning and retrospectives to ensure quality was integrated throughout the SDLC.
- Analyzed AI-generated test scenarios and test data, validating outputs for accuracy and completeness to support test development for new features.

## SKILLS

**Testing Frameworks** – Playwright, Selenium (implied)

**Programming Languages** – Python, Java, JavaScript

**Web Technologies** – APIs, REST, Web Applications

**Development Tools** – Git, Jenkins, Jira, Confluence, Docker

**Databases** – SQL, PostgreSQL, MySQL, Oracle

**Cloud Platforms** – AWS (EC2, S3, Lambda, CloudWatch)

**Methodologies** – Agile, Scrum

## PROJECTS

### Automated Web Application Testing Suite

- Developed a comprehensive automated testing suite for a core **Java Spring Boot** application using **Playwright**, covering critical user journeys.
- Integrated the Playwright test suite into the **Jenkins CI/CD pipeline**, enabling automated regression testing on every build to catch defects early.
- Authored detailed test plans and test cases based on functional requirements, ensuring a high level of **test coverage** for key features.

### API Integration Testing Framework

- Created a reusable **API testing** framework in **Python** to validate integrations between multiple internal services and a financial-services dashboard.
- Implemented comprehensive test scripts to cover various scenarios, including positive, negative, and edge cases for RESTful APIs, reducing manual testing effort by approximately **40%**.
- Managed defect tracking and reporting for API issues, collaborating with development teams to prioritize and resolve bugs affecting system interoperability.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
