HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Automated infrastructure provisioning and configuration management for a **Linux-based compute cluster** using **Ansible**, reducing manual setup time by **~60%**.
- Developed and maintained **CI/CD pipelines** using **Jenkins** for automated build, test, and deployment of applications to containerized environments.
- Implemented comprehensive **monitoring, logging, and alerting systems** using **Prometheus** and **Grafana**, improving system visibility and reducing incident detection time by **40%**.
- Designed and deployed **containerized environments** using **Docker** and **Docker Compose**, ensuring consistency across development, staging, and production.
- Managed and troubleshooted **Linux-based infrastructure**, including systemd services, shell scripting, and network configuration, to ensure high availability.
- Collaborated with R&D; teams to define and implement scalable architecture for **AI and scientific computing workloads**, focusing on performance optimization.
- Authored **Python scripts** for automating engineering workflows, data processing, and infrastructure tasks, enhancing team efficiency.

SKILLS

Cloud & DevOps – Docker, Podman, Docker Compose, Jenkins, GitHub Actions, GitLab CI/CD, Ansible, AWS, EC2, S3, Lambda, CloudWatch

Operating Systems – Linux, Shell Scripting, systemd

Programming & Scripting – Python

Monitoring & Logging – Prometheus, Grafana, Splunk, Dynatrace

Containerization & Orchestration – Docker, Podman

Infrastructure as Code – Ansible

PROJECTS

AI Compute Cluster Infrastructure Automation

- Built and managed automated infrastructure for a **high-performance compute cluster** supporting AI and scientific computing, using **Ansible** for configuration management.
- Implemented **Dockerized environments** for R&D; applications, ensuring reproducible builds and deployments across the cluster.
- Established **monitoring and logging** solutions with **Prometheus and Grafana** to track cluster performance and application health.

CI/CD Pipeline for Scientific Applications

- Developed a **CI/CD pipeline** using **Jenkins** to automate the build, testing, and deployment of scientific applications.
- Integrated **Python scripting** within the pipeline to manage data preprocessing and model deployment stages.
- Managed application deployments to **containerized infrastructure**, ensuring smooth transitions and rollbacks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
