PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Azure Active Directory** (Entra ID) configurations, including **Conditional Access policies** and **multi-factor authentication** to secure client tenants, reducing unauthorized access attempts by approximately **40%**.
- Delivered **Microsoft 365 migrations** for enterprise clients, migrating mailboxes, SharePoint sites, and Teams data while ensuring minimal disruption and data integrity.
- Deployed and managed **Microsoft Defender for Endpoint** and **Microsoft Purview Information Protection**, establishing data loss prevention (DLP) rules and access controls across client environments.
- Conducted **Copilot and AI readiness assessments** for multiple clients, evaluating data exposure, access risks, and implementing information governance controls to enable safe adoption.
- Implemented **DNS layer security** using **Cisco Umbrella**, configuring policies to block malicious websites and enforce acceptable use policies across managed networks.
- Engineered **REST APIs in Java Spring Boot** to facilitate secure data exchange between disparate enterprise systems, supporting integrations for a financial-services client.
- Containerized internal Java applications using **Docker** and deployed to **AWS EC2 instances**, establishing basic CI/CD pipelines with **Jenkins** for automated build and deployment.

SKILLS

Cloud Platform – Microsoft Azure, AWS, EC2, S3, Lambda, CloudWatch

Modern Workplace – Microsoft 365, Entra ID (Azure AD), Conditional Access, Defender for Endpoint, Purview, Information Protection, DLP, Copilot

Security – Cisco Umbrella, DNS Security, Access Control, Data Loss Prevention, Information Governance, Security by Design

Development – Java, Spring Boot, REST APIs, Python, SQL, PostgreSQL, Docker, Jenkins, Git

Infrastructure – Linux, Shell Scripting, Hyper V, VMware, Networking Fundamentals

Databases – SQL, PostgreSQL, MySQL, Oracle

PROJECTS

Azure Tenant Security Hardening

- Implemented comprehensive security controls for a client's Azure tenant, focusing on **Entra ID** configuration, **Conditional Access policies**, and **MFA enforcement**.
- Deployed **Microsoft Defender for Cloud Apps** to monitor and control third-party application access, identifying and mitigating over **15 high-risk integrations**.
- Developed PowerShell scripts to automate the auditing of tenant security configurations, ensuring compliance with client security baselines and reducing manual review time by **30%**.

Microsoft 365 Information Governance Framework

- Designed and rolled out a **Microsoft Purview** based information governance framework for an enterprise client, including **data classification** and **retention policies**.
- Configured **DLP policies** within Purview to prevent sensitive data exfiltration via email and file sharing, successfully blocking ~**20 policy violations** per week.
- Created user guides and conducted training sessions for the client's compliance team on managing and enforcing the new information governance policies.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
