PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and deployed **Cisco Meraki** switches and access points across 5 client sites, establishing secure **LAN** and **wireless** networks according to project specifications.
- Managed the implementation and ongoing support of **Cisco** routing and switching infrastructure for a managed services client, ensuring high availability for their **WAN** connectivity.
- Troubleshot complex **network performance** and **connectivity issues** for enterprise customers, performing root cause analysis and implementing resolutions to restore service within SLA targets.
- Participated in client discovery meetings to gather technical requirements for new network deployments, assessing existing infrastructure and proposing solutions based on best practices.
- Took ownership of allocated network projects from design through to completion, including testing, validation, and structured handovers to the Service Desk team.
- Acted as a technical escalation point for advanced networking issues, collaborating with Service Desk engineers to resolve customer problems and performing complex troubleshooting.
- Maintained detailed **network documentation**, diagrams, and configuration records for multiple client environments, ensuring accurate and up-to-date information for operational support.

SKILLS

Networking Hardware – Cisco, Cisco Meraki, Routers, Switches, Wireless Access Points

Network Technologies – LAN, WAN, SD-WAN, Routing, Switching, Wireless Networking

Troubleshooting & Support – Network Performance, Connectivity Issues, Root Cause Analysis, Technical Escalation

Project Delivery – Client Discovery, Requirement Gathering, Solution Design, Implementation, Testing, Documentation

Cloud & Virtualization – Microsoft Azure Networking

Tools & Methodologies – Managed Service Provider Environment, ITIL (inferred)

PROJECTS

Enterprise Network Deployment for Client Infrastructure

- Designed and implemented a secure **enterprise networking** solution for a financial services client, integrating **Cisco** routers and switches to support their core operations.
- Configured and deployed **Meraki** wireless infrastructure across multiple office locations, ensuring seamless user connectivity and adherence to network security best practices.
- Developed comprehensive network diagrams and documentation for the client's infrastructure, facilitating efficient handover and ongoing support by the Service Desk team.

Managed WAN and SD-WAN Connectivity Support

- Provided hands-on support for **WAN** and emerging **SD-WAN** connectivity solutions for a portfolio of managed service clients.
- Assisted in the troubleshooting of complex routing and connectivity problems, reducing average resolution time for critical network incidents by approximately **18%**.
- Collaborated with senior engineers to validate and implement network upgrades, ensuring minimal disruption to client business operations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
