HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **CI/CD pipelines** using **GitHub Actions** and **Jenkins**, automating build, test, and deployment processes for multiple applications.
- Managed cloud infrastructure on **AWS** and **Azure** using **Terraform** for Infrastructure as Code, ensuring consistent and repeatable deployments.
- Containerized applications using **Docker** and orchestrated them with **Kubernetes**, specifically deploying and managing services on **EKS**.
- Implemented **Infrastructure as Code** practices using **Terraform** to provision and manage cloud resources across development, staging, and production environments, reducing manual configuration errors by **40%**.
- Configured and managed **GitHub Actions** workflows to automate testing and deployment, integrating with source control strategies like **GitFlow** for efficient code merging and release management.
- Enhanced application observability by integrating **Splunk** and **Dynatrace** for real-time monitoring, log analysis, and performance troubleshooting, enabling faster incident response.
- Automated system administration tasks and deployments using **Python** scripting, improving operational efficiency and reducing manual intervention time by approximately **15%** per week.

SKILLS

Cloud Platforms – AWS, Azure, EKS, ECS

CI/CD & Automation – GitHub Actions, Jenkins, Terraform, Docker, Kubernetes, Git, Bitbucket, Python, Shell Scripting

Observability – Splunk, Dynatrace, CloudWatch

Infrastructure as Code – Terraform

Scripting – Python, Shell

Version Control – GitHub, Bitbucket, Git

PROJECTS

Cloud Infrastructure Automation with Terraform

- Engineered a comprehensive **Terraform** module to provision and manage a scalable **AWS** infrastructure, including VPCs, EC2 instances, RDS databases, and S3 buckets.
- Integrated **Terraform** with **GitHub Actions** to create a fully automated CI/CD pipeline for infrastructure changes, enabling pull requests for infrastructure modifications and automated drift detection.
- Managed state files securely using an S3 backend with versioning enabled, ensuring consistency and enabling rollback capabilities for infrastructure deployments across a team of 4 engineers.

Kubernetes Deployment Pipeline Enhancement

- Developed custom **GitHub Actions** workflows to build **Docker** images for microservices and deploy them to an **EKS** cluster using **Helm** charts.
- Implemented automated health checks and rolling updates within the Kubernetes deployment strategy, reducing application downtime during releases to under **5 minutes**.
- Configured Kubernetes resource requests and limits to optimize pod scheduling and resource utilization, improving overall cluster stability and performance.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
