HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **RESTful APIs** in **Java 21** and **Spring Boot 3.x** for new microservices, facilitating secure event-driven integrations with existing enterprise systems.
- Developed and optimized backend integrations to the **IBM Content Manager v8 (CM8)** repository using native **CM8 Java APIs**, managing complex item types and attributes for a major customization initiative.
- Wrote custom JavaScript extensions using the **Dojo Toolkit** to modify and inject new widgets into the **IBM Content Navigator** web interface, enhancing user experience and functionality.
- Containerized microservices using **Docker** and deployed them to an **AWS EKS** cluster, managing configurations with **Helm** and ensuring efficient resource utilization.
- Applied modern language features in **Java 21** to refactor legacy components, improving maintainability and performance for critical backend services.
- Collaborated with DBAs and System Administrators to deploy and configure solutions on **WebSphere Application Server (WAS)**, ensuring seamless integration with the CM8 repository.
- Managed database interactions for microservices using **Spring Data** and **Hibernate**, implementing efficient data persistence layers and optimizing queries for PostgreSQL databases.

SKILLS

IBM ECM – IBM Content Navigator (ICN), IBM Content Manager v8 (CM8), Dojo Toolkit, JavaScript, WebSphere Application Server (WAS)

Java & Spring – Java 21, Spring Boot 3.x, Spring Ecosystem, Spring Data, Spring Security, Hibernate, JPA, RESTful APIs

Cloud & Containerization – Docker, Kubernetes, AWS EKS, Helm

Backend Development – Microservices, Event-Driven Architecture, API Integration, CM8 Java APIs

Frontend Development – JavaScript, Dojo Toolkit

Databases – PostgreSQL, Oracle, MySQL

PROJECTS

Custom IBM Content Navigator Desktop

- Engineered a custom desktop environment within **IBM Content Navigator** by developing multiple **JavaScript** plugins using the **Dojo Toolkit**, integrating bespoke user interface components.
- Implemented custom request/response filters and menu extensions to streamline user workflows and enforce specific data handling policies within the ICN interface.
- Worked closely with business analysts to gather requirements for UI enhancements, translating them into technical specifications for frontend extensions.

Java Microservice for Content Management Integration

- Developed a **Java Spring Boot** microservice to interface with **IBM Content Manager v8**, abstracting complex **CM8 Java APIs** for broader application use.
- Designed and implemented **RESTful APIs** for the microservice, enabling other applications to perform CRUD operations on CM8 content and metadata with **PostgreSQL** as a supporting data store.
- Containerized the microservice using **Docker** and deployed it to a staging environment, verifying performance and integration points with upstream and downstream systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
