PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed moderately complex incidents and service requests across **Microsoft 365**, **Windows 11**, and **Active Directory** environments, restoring service for end-users within defined SLAs.
- Diagnosed technical issues by analysing logs and user-reported symptoms, building hypotheses to identify root causes for **endpoint** and **network** problems.
- Completed approved administration tasks for user accounts, **Microsoft Entra ID** configurations, and application access changes following established change control procedures.
- Provided clear, plain-language explanations of technical findings and issue impacts to non-technical customers and stakeholders.
- Escalated complex or high-risk incidents to senior engineers and specialist teams, ensuring a comprehensive handover of technical details and customer context.
- Identified recurring issues within customer environments, contributing to the creation of **reusable knowledge base articles** and procedural improvements.
- Supported Level 1 engineers by sharing practical troubleshooting knowledge and providing peer guidance on common issues encountered in managed environments.

SKILLS

Microsoft 365 – Exchange Online, Outlook, Teams, SharePoint Online, OneDrive

Identity & Access Management – Microsoft Entra ID, User Administration, Group Administration, Multi-Factor Authentication, Self-Service Password Reset, Conditional Access

Endpoint Management – Microsoft Intune, Device Enrolment, Compliance Policies, Configuration Profiles, Application Deployment, Remote Actions

Operating Systems – Windows 11, Windows Server, Active Directory, Group Policy

Networking – TCP/IP, VPN, VLANs, Switching, Wi-Fi, Routing

Cloud & Virtualisation – Azure Virtual Desktop, Azure Services, Hyper-V, VMware

Security – Microsoft Defender, Security Alerts, ISO 27001 awareness

PROJECTS

Enterprise Endpoint & Identity Support Enhancement

- Developed a comprehensive set of **PowerShell scripts** to automate common user onboarding and offboarding tasks within **Microsoft Entra ID** and **M365**, reducing manual intervention by approximately 40% for the support team.
- Created detailed **troubleshooting guides** and runbooks for common Windows 11 and Microsoft 365 application issues, improving first-call resolution rates by 15% for Level 1 engineers.
- Assisted in the rollout and configuration of **Microsoft Intune** policies for a pilot group of 50 devices, ensuring compliance and standardisation across the user base.

Customer Managed Services Dashboard Automation

- Built automated reports using **Python** and **SQL** to monitor key performance indicators for managed services clients, including ticket resolution times and system availability metrics.
- Integrated data from ticketing systems and monitoring tools into a central dashboard, providing operations teams with a consolidated view of service health and performance trends.
- Configured alerts based on defined thresholds for critical incidents, enabling proactive response and reducing potential service disruptions for enterprise customers.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
