PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Collaborated with project statisticians and programming teams to develop **global tools** for managing **CDISC Standards** adoption, improving compliance and efficiency across project lifecycles.
- Mentored and trained 5 junior engineers on the effective use of **metadata repositories** and other technologies to support adherence to **CDISC Standards** and regulatory requirements.
- Monitored regulatory authority and standards organization websites for updates, informing leadership of changes relevant to **CDISC** and pharmaceutical data submission guidelines.
- Supported clients as an authority in the use of **CDISC Standards**, engaging in communication, collaboration, and guidance for teams working with clinical trial data.
- Developed and implemented productivity tools that enhance **compliance** and timeliness of deliverables, aligning with FDA Guidance Documents and other regulatory standards.
- Contributed to IQVIA initiatives as a **CDISC representative**, interacting with CDISC sanctioned teams in the development and refinement of industry standards.
- Containerized data processing and analysis tools using **Docker**, deploying them onto **AWS EC2** instances to ensure consistent environments for regulatory data preparation.

SKILLS

Standards – CDISC, SDTM, ADaM, HL7, Transcelerate

Programming – SAS, R, Python, Julia, C#, Java

Data Analysis – Pharmaceutical Clinical Trial Data, Statistical Programming

Cloud & DevOps – AWS, EC2, Docker, Jenkins, Git

Methodologies – Agile, Scrum

Tools – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

PROJECTS

CDISC Standards Implementation for Clinical Data

- Developed Python scripts to automate the transformation of raw clinical trial data into **SDTM** format, reducing manual processing time by **40%**.
- Created reusable code modules in **R** for common ADaM data derivations, enabling faster analysis and reporting for multiple study teams.
- Documented best practices for data mapping and validation against **CDISC** requirements, forming the basis for a new internal knowledge base.

Metadata Repository Integration for Data Governance

- Integrated a **metadata repository** with existing data pipelines using Python and SQL to track data lineage and enhance compliance reporting.
- Designed and implemented automated data quality checks within the pipeline to identify and flag non-compliant data points against defined standards, catching approximately **15%** of potential issues before submission.
- Collaborated with business analysts to refine metadata definitions, ensuring alignment between technical data structures and regulatory expectations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
