HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and maintained the **BigQuery** data warehouse model, transforming raw data into documented, trusted tables for company-wide metric analysis.
- Developed and deployed **Python** scripts to automate data extraction and transformation for **scheduled reporting**, reducing manual effort by approximately 15 hours per week.
- Collaborated with Product and Engineering teams to define and implement data capture strategies for measuring key company metrics, including **clinical efficiency** and **patient outcomes**.
- Built and managed **BI datasets and dashboards** for Delivery and Product teams, enabling self-service analytics and informed decision-making on platform performance.
- Investigated and resolved data quality issues within the **BigQuery** warehouse, ensuring consistent and accurate reporting for client-facing analytics.
- Provided direct analytical support to clients, answering questions on **feature adoption** and **pathway outcomes** using data insights derived from the platform.
- Containerized data processing services using **Docker** and deployed them to a **Google Cloud Platform** environment, ensuring scalable and reliable data pipelines.

SKILLS

Cloud Data Warehouse – BigQuery, GCP

Data Modelling – Dimensional Modelling, Staging-to-Mart

Data Analysis & BI – SQL, Python, pandas, Power BI, Tableau, DAX, Power Query

Data Engineering – ETL, ELT pipelines, Data Warehousing

Programming & Scripting – Python, Node.js, TypeScript

Containerization & Cloud – Docker, AWS, GCP

Methodologies – Agile, Scrum, CI/CD

PROJECTS

Healthcare Pathway Data Model Enhancement (HCL Technologies)

- Designed and implemented a layered data model in **PostgreSQL** to support a financial-services operations dashboard, improving data retrieval for transaction monitoring by **20%**.
- Developed **Python** scripts for ETL processes to ingest and transform data from various sources into the data warehouse, supporting reconciliation workflows.
- Collaborated with business analysts to define data requirements for operational alerting and reporting on payment message flows.

Patient Outcome Analytics Dashboard (MSc Data Analytics Project)

- Developed interactive **Power BI** dashboards to visualize patient outcomes and pathway performance metrics, enabling stakeholders to identify trends and areas for improvement.
- Constructed complex **DAX** measures and performed data modelling within Power BI to aggregate and analyze patient journey data from multiple sources.
- Applied statistical methods using **R** to analyze cohort data, identifying factors contributing to successful patient pathway completion.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
