HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and enhanced Salesforce solutions using **Apex** and **Lightning Web Components (LWC)**, delivering features to support digital service delivery.
- Managed platform changes, deployments, and multiple Salesforce environments, ensuring smooth transitions and version control for new functionalities.
- Improved **CI/CD pipelines** and automated deployment processes for the Salesforce platform, reducing manual intervention and deployment times.
- Monitored **Salesforce platform performance** and troubleshot technical issues, collaborating with engineering teams to maintain reliability and user experience.
- Worked with engineering and security teams to enhance **platform reliability** and implement security best practices across the Salesforce ecosystem.
- Designed and implemented **Salesforce Flows** to automate business processes and streamline workflows, improving operational efficiency for financial services operations.
- Containerised Salesforce deployment artifacts using **Docker**, facilitating consistent deployment across development, testing, and production environments.

SKILLS

Salesforce Development – Apex, Lightning Web Components (LWC), Salesforce Flows, Platform Developer I, Platform Developer II

DevOps & Automation – CI/CD, Jenkins, Git, Docker, Infrastructure Automation

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Database & Data Management – SQL, PostgreSQL, MySQL, Oracle

Programming Languages – Java, Spring Boot, Python

Observability & Monitoring – Splunk, Dynatrace

Project Management – Jira, Confluence, Agile, Scrum

PROJECTS

Salesforce Platform Automation (HCL Technologies)

- Automated Salesforce deployment processes using **Jenkins** and **Git**, enabling faster and more reliable releases of new features and updates.
- Developed custom **Apex** classes and triggers to extend Salesforce functionality, integrating with backend systems via REST APIs for enhanced data flow.
- Implemented comprehensive monitoring for the Salesforce platform using **Splunk** and **CloudWatch**, establishing alerting for critical performance metrics and system health.

Financial Services Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** by developing new Java Spring Boot microservices to process and display real-time transaction status updates.
- Wrote **Python** scripts to automate data validation and reporting for transaction reconciliation workflows, improving data accuracy for the financial services client.
- Managed production incidents and SLA adherence for the payments dashboard using **Dynatrace**, contributing to the operational stability of critical financial workflows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
