HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for internal services, handling approximately 500 requests per minute.
- Implemented data validation and error handling for **Java EE** applications, ensuring data integrity across batch processing jobs.
- Refactored SQL queries and introduced strategic indexing for **PostgreSQL** database operations, improving query performance by an average of **22%**.
- Collaborated with cross-functional teams to gather technical requirements and refine user stories within an **Agile/Scrum** framework.
- Participated in code reviews and provided constructive feedback to junior engineers on **Java** and **Spring Boot** implementations.
- Containerised enterprise applications using **Docker**, enabling consistent deployment across development and staging environments.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing fixes to meet **SLA** targets.

SKILLS

Programming Languages – Java, Python, SQL, R, TypeScript

Frameworks & Libraries – Spring Boot, Spring Core, Hibernate, JPA, Flask, FastAPI, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

Methodologies – Agile, Scrum, CI/CD

PROJECTS

Industrial Control System Simulation Platform

- Developed a **Python**-based simulation environment for testing control system logic, processing up to 1,000 sensor data points per second.
- Integrated real-time data feeds using **Flask**, simulating industrial process variables for performance analysis.
- Designed data logging mechanisms to capture simulation outputs for post-run analysis and debugging, generating detailed reports.

Automated Data Pipeline for Manufacturing Analytics

- Engineered an **ETL** pipeline using **Python** and **pandas** to ingest and transform sensor data from multiple sources.
- Implemented data quality checks and cleansing routines, reducing data anomalies by **18%** before loading into analytical stores.
- Automated scheduled reporting using **SQL** queries and Python scripts, delivering weekly operational insights to engineering teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
